THE Cleveland *Herald* says the health of Gen. Garfield has been so much impaired that he had arranged to take a trip to Europe, with which, however, business matters threaten to interfere.

COLONEL BURKE.—Colonel Burke, the convicted Fenian, whose death sentence has been commuted to imprisonment for life, was formerly Colonel of the Eighty-eighth New York Volunteers, one of the gallant regiments of the Irish Brigade. He served with distinction, and performed good service in the Union cause.

THE Memphis *Bulletin* asserts that the steamer which left Vicksburg with eighty tons of supplies to distribute gratuitously among people in distress along the river, was able to dispose of but two tons, the people saying they desired no assistance from the government. This would indicate a much better state of things than has been supposed to exist.

THE colored people in Washington have refused to insist on the nomination of colored candidates at the Republican Convention to be supported at the ensuing municipal election. White candidates were nominated (although the colored men were in a decided majority,) against the earnest advice of Mr. Sumner and other leading radicals.

IRELAND.—Returns from the office of the Irish Register General for the last quarter of 1866, show a decrease of population during the year of 47,000, most of which was by emigration to the United States. The emigration of the last quarter of the year was 12,894. The emigration for the first quarter of the present year is largely in excess of the foregoing.

THE Philadelphia *Gazette* refers to the fact that the bonded debt of St. Louis has been decreased a million dollars in ten years, and that in Toledo fifteen hundred houses and stores are being built now, and thereupon asks—"is there not something at work which deserves to be recognized?" Unquestionably there is. With the two cities named the favorable something is extensive railway connections—both by the focus of many roads. If Philadelphia would only "recognize" and act on this, she would feel the same sort of impulse which she perceives in the growth and prosperity of other cities.

Pittsburgh, Fort Wayne and Chicago Railroad.

We notice an article in the Philadelphia *Inquirer* of the 15th inst., directed against the managers of the Fort Wayne Railway Company, which is apparently so unjust and malevolent in its strictures that we have taken the trouble to make direct inquiry concerning them. The article in question claims that the proposed issue of one and a half million of dollars in new stock at a discount to the shareholders is a "watering of the stock;" that "the corporation already enjoys a most unenviable reputation among Western roads;" that "*three* days are frequently consumed in going from Pittsburgh to Chicago;" that "accidents upon the line are of frequent occurrence;" that "delays and detentions occur much too often," and altogether "the road has become a fruitful source of complaint among Western travelers;" that "the stockholders when they come together should demand the immediate reform of the numerous crying evils that now beset the road," &c. &c.

These are serious charges to bring against the Board of Directors and officers of this company, who, we supposed, were persons of intelligence and energy, and anxious not only to so manage the important property committed to their care as to make regular dividends to the shareholders, but to render the road attractive and reliable as part of the greatest "through line" between the seaboard and the West.

We had supposed that from the high rank which the different securities of the Company hold in the market, that great confidence was felt in them as investments, but if the charges of the *Inquirer* be true, much doubt must be felt towards them, and justly, too.

No individual would be inclined to risk his money in the securities of a company that was managed in the manner implied in the article of the *Inquirer*.

But these charges are not true. No "watering of the stock" is to occur. The Board of Directors, in their last annual report, distinctly and unequivocally stated that they were unwilling to make recommendations, or administer the property on any such principle.

The discount at which the new stock is to be subscribed for will represent the amount of bonded debt redeemed by the action of the Sinking Funds, established for that purpose. This every intelligent business man will recognize as being just to the shareholders, and sound in principle, and needs no further explanation.

So far as regards the other charges relative to persons consuming three days in going from Pittsburgh to Chicago, and of the numerous delays in traveling on the road, and the unenviable reputation the Company enjoys among the business public generally, they have as little foundation as the former. We venture to say that no road West of the Allegheny Mountains runs its trains with more order and regularity, and that none affords a safer, more rapid, or more comfortable means of communication between the East and the West.

The idea of persons consuming *three* days in traveling between Pittsburgh and Chicago, without they choose to, is simply ridiculous. The average time is only *twenty hours*.

And if the road *enjoys* the "unenviable reputation" which the *Inquirer* alleges it does, one would suppose that its natural effect would be shown in a diminution of its business.

But it is steadily on the increase. The truth is that no Western railroad is becoming so popular as the Fort Wayne Road as a safe, reliable and comfortable route for the transportation of persons and property.

This is evidenced by the fact that strenuous efforts are being made by the Northern competitors of it and the Pennsylvania Railroad to imitate the comforts and convenience it affords to travelers, and to equal if possible its facilities for the regular and rapid movement of through tonnage.

The money to be realized from the new stock is to be used, we understand, in adding to these facilities, which have been increased to so large a degree during the past five years, amounting, we learn, to nearly $8,500,000, of which $4,800,000 has been contributed from earnings, after paying ten per cent. dividends—and this addition to the permanent property of the Company has resulted in *doubling* its earnings during the time named.

We can see no other reason for this unjustifiable attack on the Company than that it has been instigated by speculators who are, to use the slang of Wall street, heavily "short" of the stock at low prices, and are fearful of being obliged to pocket a heavy loss, in view of the firmness with which the stock [illegible].

HOSTILITIES COMMENCED—VANDERBILT vs. DREW.—The fight between Drew and Vanderbilt has commenced. To punish the People's Line for running boats to Athens, Vanderbilt has reduced the price of passage from New York to Chicago to $7 50. This allows the Hudson River road only $1 for carrying Western passengers from New York to Albany. This means war. It means that "Brother Cornelius" is after "Uncle Daniel" with a large sized scalping knife, and intends to "lift his hair" if possible.—*Troy Whig.*

MORE STRIKES.—The strike mania has communicated to the negroes, and those employed in the Lynchburg tobacco factories demand higher wages. More fortunate than the white strikers, they have obtained an acquiescence in their demands and henceforward are to be paid $2 25 instead of $1 75 a day. We have thus another indication that Sambo is abundantly able to look after his own rights.

IN 1861 the English Government, to encourage a habit of saving among the working classes, established savings banks in connection with several of the postoffices. Last year between seven and eight hundred thousand persons deposited sums in these "Postoffice Banks," and the deposits accumulating during the five years now amount to over forty millions of dollars.

A LONDON letter says: Lord Brougham has just compromised a scandalous case in which he was involved, by paying five thousand pounds (nine thousand were claimed) besides law expenses, which will probably swell the aggregate to some thirty or forty thousand dollars. It is said that some disgraceful developments would have been made if the case had gone on.

TOBACCO.—The Lynchburg *Virginian* of Friday says: "Yesterday was the heaviest day in tobacco of the season. The sales were very heavy, and mostly of shipping, and the prices were well sustained, ranging from ten to seventeen dollars per hundred. The brakes were completed at only two warehouses, owing to the quantity of tobacco in the market."

Impeachment Investigation to be Resumed on Monday.

Reconstruction Disfranchising Clause.

Attorney General Stanbery's Opinion to be Promulgated To-Day.

Texas Virtually Decided to be a State in the Union.

Special Dispatch to Pittsburgh Commercial.

WASHINGTON, May 17, 1867.

The Legal Tender Act.

The Supreme Court yesterday rendered decisions sustaining the legal tender act. A mercantile firm in Washington claimed to have made a special deposit in gold with Riggs & Co., bankers, prior to the legal tender act. Subsequent to its passage the defendants declined to pay in kind, but made a tender of treasury notes, which plaintiffs refused to accept, and brought their action to compel payment in gold. In order to show on the trial a special contract to pay in gold, evidence was offered of an arrangement made generally in the District of Columbia, where the action was brought, between depositors and their bankers at the time gold commenced rising to a premium, by which deposits were to be paid in kind. This evidence was excluded, and the legal tender act being held constitutional judgment was given for the defendants. The case was appealed. Justice Clifford read the opinion of the court, affirming the judgment below, holding that the evidence offered was properly excluded, as the judgment below was that the legal tender act was constitutional. This affirmance is equivalent to a direct finding in the case by the Supreme Court to that effect, although the question is not discussed further than to say that the deposit was payable in legal money of the United States, meaning thereby Treasury notes, which were tendered by the defendants.

Judiciary Committee Investigations.

The Judiciary Committee continued, to-day, to hear evidence on the question of title to the Kansas Branch of the Union Pacific Railway. A number of witnesses were examined. The Committee will resume the impeachment investigation on Monday, when General Burton, late custodian of Jeff. Davis, and Secretary Seward will be examined.

The Disfranchising Clause.

The Cabinet met to-day to hear the completed opinion of Attorney General Stanbery read on the disfranching clause of the Reconstruction act. It is contemplated to promulgate it to-morrow to the commanders of military districts through the Adjutant General's Office, in the form of a general order. The delay of the opinion has been principally caused by an examination of statutes of all the Southern States, in order to ascertain what local, State and municipal officers have taken an oath to support the Constitution of the United States. Those who have taken such an oath, and afterwards participated in rebellion, are disfranchised, it is claimed, by the supplemental reconstruction act. The opinion is very elaborate, but is of special interest only to the Southern people.

Texas a State.

The Supreme Court has virtually decided Texas to be a State in the Union, by granting on yesterday an injunction to restrain the payment of certain Texas bonds to the parties to whom it is alleged they were sold during the rebellion, by parties in armed hostilities to the United States, who had seized upon the archives of the treasury and the property of the State.

The Japanese Embassy.

The Japanese Commissioners have spent the present week in studying the English language. They visit Boston and Philadelphia next week.

Secretary Chandler to Resign.

Assistant Secretary Chandler, of the Treasury, resigns on account of ill health on the first of June, and goes into the country. He declines all other official positions.

The President Ill.

The President is quite ill to-night.

Secretary Browning

Goes to Illinois in a day or two and will remain a month.

Appointments.

The President to-day appointed J. Orr Collector of Internal Revenue in the sixth Iowa district, to fill a vacancy, and D. K. Noyes Postmaster at Baraboo, Wisconsin.

WASHINGTON, May 17, 1867.

THE SUPREME COURT.

The Supreme Court, during the term just closed, disposed of 200 cases, leaving 250 on the docket. All the admiralty cases argued were decided. It is a matter of comment that the Court recognized Texas as a State in the Union by allowing an injunction to restrain payment of certain bonds.

GEN. BAKER TO BE SENT FOR.

The Judiciary Committee has sent for Gen. [illegible], to explain that which in his impeachment testimony is not substantiated by other witnesses.

GEORGE BANCROFT APPOINTED MINISTER TO PRUSSIA.

The President to-day appointed George Bancroft, of New York, Envoy Extraordinary and Minister Plenipotentiary at Berlin.

FROM FORT BUFORD.

The following was received at General Grant's Headquarters to-day:

ST. LOUIS, May 17.—*To the Adjutant General:* Since my telegram of this morning, I have heard from Colonel Rankin, of date March 31. He says no further hostility against the post has been attempted by the Sioux, although he has not been able to forward the mail from January 17th to March 31st. On examining the envelope I found that all communications must have left Fort Buford the same day. They bear same post mark, namely, Fort Rice, April 20. Colonel Rankin says he received March 30th, the first official communication since January.

[Signed] W. A. NICHOLS, A. A. G.

BOARD OF VISITORS.

The Secretary of the Navy has appointed the following gentlemen a board of visitors to the Naval Academy at Annapolis during the examination on the 20th of May: Hon. H. B. Anthony, Rhode Island; Hon. A. G. Rice, Massachusetts; Hon. G. V. Fox, Hon. W. A. Darling, New York; Rev. Wm. Salter, Iowa; Wm. S. C. Witters, Commodore [illegible], Rear Admiral T. Pearson, Commodore D. [illegible] Ridgely, Surgeon N. Pinkney, Paymaster [illegible] Hambleton, Chief Engineer Roberts.

BRAZILIAN MINISTER.

Counsellor Joaquin Maria Nascents De Assumbjua, Minister of Brazil at Washington, yesterday presented his letter of call to the President.

FROM CINCINNATI.

Old School Presbyterian General Assembly.

CINCINNATI, May 17.—The Presbyterian General Assembly, Old School, assembled here yesterday. Dr. R. L. Stanton, President of the Miami University, preached the opening sermon. Over two hundred members are present. Dr. Gurley, of Washington City, was elected Moderator.

At the Presbyterian General Assembly this morning, the various standing committees were appointed, after which the report of the Joint Committee of the Old and New School Churches, on the subject of re-union, was read and referred to a Select Committee of seven.

FROM BUFFALO.

Terrible Accident—Four Men Killed and Fifteen Badly Injured.

BUFFALO, May 17.—About two o'clock this afternoon the roof of the Buffalo Union Puddling Mill, ninety by two hundred feet, fell in, burying one hundred workmen in the debris. Four men were killed and fifteen dreadfully crushed. Killed—Charles H. Mulligan, George Pierce, Frederick Foster, and James Murphy. The Union Iron Works were destroyed by fire last December, and had been rebuilt, and the roof was just being placed in position.

Murderess Arrested.

BOSTON, May 17.—A young woman, named Alice C. Abbott, has been arrested on a charge of causing the death of her stepfather, Washington Pickering, by poison.

Reform Meeting—Address of John Bright.

NEW YORK, May 17.—The *Herald's* special, dated London, 15th, says: A numerously attended and very imposing meeting of the reformers of England was held in St. James' Hall, in this city, to-day. The assemblage was called with the view of supporting a proper and well adjusted plan of household and lodger franchise, and some of those present were inclined to accept what are known as the Cabinet concessions, on these points.

M. John Bright attended and delivered an address to the assemblage. He argued very forcibly against the Disraeli bill and its amendments, and showed that in mere justice to the will of the people, as expressed at this and other meetings, the Liberal members of the House of Commons should reject the measure altogether by voting against it unanimously at the third reading, and thus compel the Cabinet to remit the question of reform to the people at large in the new bill.

Shipping Intelligence.

QUEENSTOWN, May 17.—The Cuba, from Boston, has arrived at Londonderry. The North American, from Portland, has arrived.

Turkish Defeat in Candia.

LONDON, May 17.—Dispatches from Athens states that two sanguinary battles have taken place recently in Candia, in both of which the Turkish commander, Omar Pasha was badly beaten. His loss in both is estimated at 3,000.

Another Petition to the Porte.

The great powers of Europe have again united in a petition to the Porte to cede Crete to Greece.

South American Affairs.

LISBON, May 17.—The mail steamer from Rio Janeiro arrived to-day. The South American news is important. President Lopez, of Paraguay, has accepted the mediation proffered by the United States Government through Minister Washburne, and would send an Envoy to Washington. The allies, on the other hand, have not accepted the American plan, and it is doubtful whether they would. There has been no further fighting between contending armies. The revolt in the district of Mendoza, Argentine Republic, is assuming still more alarming proportions.

Honor to the Memory of Gov. Wright.

BERLIN, Evening, May 17.—A meeting of Americans was held in this city to-day, in honor of the memory of the late United States Minister, Governor Wright. Over one hundred persons were present, and Mr. Fry presided. Governor Curtin, of Pennsylvania, delivered an eulogy, and a series of appropriate resolutions were passed.

The Rinderpest.

LONDON, May 17, Evening.—Orders have been issued in council for the prevention or introduction of the ravages of Rinderpest, which has again made its appearance and prevails in some counties of England.

Decree Favoring Hungarian Protestants.

VIENNA, May 17.—An imperial decree has been promulgated, favoring the Protestant inhabitants of Hungary.

London Money Market.

LONDON, May 17, Noon.—The Bullion in the Bank of England has increased for the week £174,000. Money is quiet and steady. Consols, 92¼; Erie, 42; Illinois, 76¾; Bonds, 72⅝; Bonds at Frankfort, 77⅜.
LONDON, May 17, Evening.—Money market quiet. Consols, 92¼; Illinois Central, 76¾; Erie, 42⅝; 5-20s, 72⅝.

Liverpool Markets.

LIVERPOOL, May 17, Noon.—The sales of cotton for the week were 108,000 bales. The total stock is 826,000 bales. The market to-day is firm. Breadstuffs quiet. Corn, 41s 6d. Wheat, 13s 9d for western red; 14s 6d for California white. Oats, 3s 7d. Provisions quiet. Lard 52s. Cheese 68s. Produce here and in London quiet, and without material alteration. Ashes, delivered, 6d; pots 33s 6d. Pig iron advanced to 53s 6d.
LIVERPOOL, May 17, Evening.—Cotton firm at 11½d for middling uplands; 11¾d for Orleans; sales 12,000 bales. Breadstuffs dull. Flour, wheat and corn unchanged. Oats declined 1d, and quoted at 3s 6d, and closed at 4s 6d for Canadian. Provisions quiet, without change. Lard declined 3d, quoted at 51s 9d for American.

Manchester Market.

MANCHESTER, May 17.—Markets dull and with declining tendency.

Antwerp Petroleum Market.

ANTWERP, Evening, May 17.—Petroleum—prices are still declining. Sales of standard white at 42 francs 25 centimes ⅌ bbl.

Closing premiums, all ages, one and a quarter mile dash, won by McDaniel's black colt, who was beaten in third rate; time, 2:23½.

RISTORI'S FAREWELL.

Madame Ristori made her last appearance in America to-night as Medea, to a crowded house. She made a brief farewell address in English, and seemed much affected at parting with the American public. She sails to-morrow in the Ville de Paris.

FROM ROCHESTER, N. Y.

Proceedings of Presbyterian General Assembly.

ROCHESTER, May 17.—In the Presbyterian Assembly to-day the standing committees were appointed, records presented and reports of permanent committees received. The report of the commission on foreign missionaries is very gratifying.

Contested Election.

LOUISVILLE, May 17.—Hon. Sam McKee, of Mount Sterling, Kentucky, will contest the election of John D. Young, Congressman elect for the Ninth Congressional district.

On the evening of the 7th inst., the dead body of Abner Stall, of Richhill township, Greene county, was found in the mill race of his father, Abraham Stall, in said township. An inquest was held on the body on the morning of the 8th, under the direction of Francis Drake, Esq., which resulted in finding that the said Abner Stall came to his death by accidental drowning, while in a fit of epilepsy.

Wm. A. Stone, an old citizen of Uniontown, but for several years past residing near New Salem, Fayette county, died May 14th, at 3 o'clock P. M. Mr. Stone was nearly, if not altogether eighty years of age. He was extensively known throughout Western Pennsylvania and no citizen of Fayette county enjoyed to a greater extent the esteem and friendship of his fellow men.

MEXICO.

Maximilian Hemmed in at Queretaro.

No Attempt to Storm Vera Cruz.

NEW YORK, May 17.—The steamer Virginia, from Vera Cruz, Sisal and Havana, arrived. She brings $17,000 in specie from Vera Cruz.

It is again stated that Maximilian is penned in at Queretaro. Sisal and Merida are in possession of the Liberals. There will be no attempt to take Vera Cruz by storm. Provisions there are plenty and cheap.

LATE NEWS ITEMS.

Measures are being taken among prominent German citizens of New York, to concentrate the German vote at the next election on an anti-excise platform, independent of political views.

An order from Military Headquarters issued to-night, forbids the carrying of fire-arms, openly or secretly, by any citizen of New Orleans, except in performance of official duty. The offender is to be tried by Military Commission.

Senator Wilson addressed a public meeting in New Orleans Thursday night, and was followed by a colored clergyman. Gen. Longstreet was one of the Vice Presidents of the meeting. Some apprehension of a riot was felt, and the military were under arms.

It is said the respectable citizens of Mobile profess great indignation at the riot. Mayor Withers waited on Mr. Kelley, and urged him to hold another meeting, promising to insure him safety. Mr. Kelley peremptorily refused to assist Mobile in purging herself from the sin of violated hospitality and premeditated assassination. Gen. Swayne has gone to Mobile to investigate the riot.

The liabilities, so far ascertained, of Wiggin & Crawther, of St. Louis, charged with fraud and swindling, are $60,000. About $15,000 worth of goods remained in the store when the assignment was made, against which David Valentine & Co., Irwin & Co., New York, Haskell & Co., St. Louis, have laid claims.

Judge Kelley is to address the citizens of Montgomery, Ala., to-day.

It is said that Secretary Seward's long cable dispatch to Napoleon last winter, on Mexican matters, and which was really much ado about nothing, has not yet been paid for, the Cable Company's tolls on it being over $19,000 in gold.

The War Department has official reports from Fort Buford, Dakota, dated February 28, several weeks after the alleged massacre, when all were well.

It is reported that Judge Holt was willing to have Booth's diary published in the papers, and the President was also agreed to the same purpose, but Secretary Stanton refused to allow a copy to be made for some reason, and so the curiosity of the public in this matter cannot now be gratified.

Chief Justice Chase is reported to have stated to one of the counsel of Jeff. Davis that he intends to preside at the trial whenever the government was prepared to proceed with it. Jeff. Davis's friends here have been congratulating themselves that he never would be tried, and that the recent action at Richmond was the end of the affair.

The act of the Legislature to suppress the "Mollie Maguires" in Schuylkill county, is deemed unconstitutional and oppressive. Thursday, Frank Hughes, Esq., in the case of the Commonwealth against the Judges of the Court of Common Pleas of Schuylkill county, moved an alternative mandamus, which was granted, returnable in twenty-four hours, and the argument fixed for Thursday next, the 23d, instant. This is to show cause why the Judges of the Court of Oyer and Terminer and the general jail delivery of Schuylkill county should not issue *venires* and proceed to hold criminal courts as before the passage of the act of the Assembly of 1867, so that the issue is thus made up. Messrs. Ellis and Hughes, of Schuylkill county, and McMurtrie, of Philadelphia, for plaintiffs; Mr. Walker, of Schuylkill, for defense, and Mr. Gowen and Attorney General Brewster for the Judges, appointed by the Governor under this act. The petition sets forth that certain persons are held in prison illegally, and that the act alluded to is unconstitutional and subversive of popular liberty.

RAILWAY MATTERS.

NEW RAILROADS.

Work has recommenced on the Union and Titusville Railroad, and the Collector has notified the stockholders that their assessments will be called for.

The Colebrookdale Railroad, to run from Pottstown to Boyertown and thence to Allentown is to be commenced this summer. The first twelve miles of road, from Pottstown to Boyertown and thence to Mount Pleasant, will be put under contract in a few weeks. The Reading Railroad will lend their aid in pushing forward this enterprise.

The incorporators of the Kittanning, Rural Valley and Reynoldsville Railroad, met in Kittanning on the 7th inst., when it was deemed advisable by those present to take no action in regard to the construction of this road until there was a full meeting. The *Republican* says: Many were unavoidably detained, by business, from being present, but promise attendance at the next meeting, which is called to meet at the Reynolds House on the 13th of June next. There is a lively interest being manifested by capitalists and others in the building of this road, it being conceded by all as one of great importance. We are assured that if the gentlemen who have now the charter in their possession, will not undertake its construction, that the Pennsylvania Central will most certainly do it. So far as right of way is concerned, we are informed that there will be no difficulty whatever. Those owning lands along the contemplated route are exceedingly anxious for its early completion, and will give it all the aid in their power.

A LIBERAL CHARTER.

The following railroad charter was passed by the last Legislature, and approved by Governor Geary, April 13th, under the provisions of which it is thought by some, a road might be built from the Fayette County Railroad at Connellsville to Cumberland.

An act to change the name of the Bedford Iron Company; to authorize it to hold lands in Somerset and Clearfield counties; to build railroads; to increase its capital stock; to borrow money; to extend its charter, and to prohibit it from connecting with a certain railroad.

SECTION 1. *Be it enacted by the Senate and House of Representatives of the Commonwealth of Pennsylvania, in General Assembly met, and it is hereby enacted by the authority of the same,* That the said Bedford Iron Company shall hereafter be known by the name, style and title of the "Somerset and Clearfield Coal Company;" and it shall be lawful for said corporation to hold not exceeding in the aggregate, two thousand acres of land in Somerset and Clearfield counties.

SECTION 2. That said company shall have authority to construct a railroad or railroads, with branches from their lands in said counties, by such routes, and to such points of connection with other railroads, and to connect with such other railroads, as to the directors may seem advisable: and said company shall be entitled to all the privileges and be subject to all the provisions and restrictions prescribed by an act regulating railroad companies, approved the 19th of February, A. D. 1849, and the several supplements thereto; and that said company shall have authority to increase their capital stock to an amount not exceeding twenty-five thousand dollars, for every mile of road the directors may deem advisable to build; and that the directors of said company be authorized to borrow, from time to time, such sums of money as may seem necessary to provide for the construction and equipment of said railroads and branches; and to issue bonds therefor in sums of not less than one hundred dollars each, at a rate of interest not exceeding seven per centum, to be redeemed at such time and place as the directors may agree upon, and may secure the same by one or more mortgages, from time to time, upon the whole or any part or parts of said railroads, branches and extensions hereby authorized, and upon all or part of the estate, real and personal, acquired or to be acquired, thereto belonging, and upon the corporate franchises thereof, or such part as may be mortgaged.

SECTION 3. That the charter of said company is hereby extended for a further period of twenty years; and that said company shall not connect its roads with the Pittsburgh and Connellsville Railroad.

On the 7th inst., Mr. David Bryant, an aged and respected citizen of Summerville, Jefferson county, celebrated the sixtieth anniversary of his marriage with his esteemed wife. Mr. Bryant is eighty-three years of age, and is a native of New York. Sixty years ago he married Miss Eleanor Herrington, a native of Connecticut. The lady also is eighty-three years of age. Ten children have blessed the venerable couple, three of whom are now living. One of the sons, Mr. N. R. Bryant, is the Postmaster at Summerville.

The "oil fever" is likely to rage again in McKean county. Last season a well was sunk near Bradford, and oil obtained, but not in paying quantities. A few days since, however, it was discovered that the well was flowing oil—several buckets-full of which were caught. The flow was estimated at twenty barrels, but most of it was lost before vessels could be procured to save it. So says the Clearfield *Journal*.

They have had a first-class sensation at Tidioute, being a disturbance in which a wife appears who has two husbands, one of the husbands being able to reciprocate by being the possessor of two wives. On Sunday morning the parties met at a hotel and had a very good specimen of a riot. Louis Roachpaugh, Michael Casey and Johnny Hannegan, three of the belligerents, have been arrested for riotous conduct, and committed to jail in default of bail.

The Gubernatorial Canvass—Speeches of Emerson Etheridge and Col. Stokes—Cumberland Presbyterian General Assembly.

MEMPHIS, May 17.—Emerson Etheridge, the Conservative candidate for Governor, spoke in Court Square this morning. There were about 10,000 persons present, including many ladies. He was very bitter against Brownlow, and showed the corruptions by which that party sought to retain power. He was followed by General William B. Stokes, who defended Brownlow and the Radical party with great warmth. He said Grant, Sherman, Thomas and Sheridan were radicals, and they conducted the present reconstruction law. Both speakers admitted that the rebels who fought were quietly attending to their domestic duties, and cared nothing for politics. All passed off very quietly.

The Cumberland Presbyterian General Assembly is employed to-day in hearing reports of committees on foreign and home missions. Ten o'clock Monday was set apart for the consideration of the question of uniting with the Presbyterian Church.

FROM CANADA.

Medical Convention at Ottowa—Preparations to Receive Jeff. Davis at Montreal.

OTTOWA, C. W., May 17.—The Medical Council, which has been holding its annual meeting here for the past week, adjourned last night. Business of much importance to the profession was transacted. Eight homoopathics and eclectics who profess to have legal qualifications demand registration to be tested in the courts. Parliament is to be petitioned to pass an act to prevent the publication of immoral and indecent advertisements in the public papers in this province, and prohibit the circulation through any channel of pamphlets of similar character.

TORONTO, May 17.—A dispatch from Montreal says apartments have been reserved at St. Lawrence Hall for Jeff. Davis and family, who are expected there to-morrow. The Southern refugees residing here intend to invite him to visit this city.

FROM NEW ORLEANS.

Commercial Bank Suspended—Order from General Sheridan—Firemen's Festival.

NEW ORLEANS, May 17.—The Commercial bank suspended this morning. Jacob Barker pledges his real estate, with an annual rental of $15,000, to cover the liabilities of the bank.

An order was issued this morning by General Sheridan prohibiting the carrying of fire arms by any persons except authorized officers, will be subject to trial and punishment by Military Commission.

The meeting last night addressed by Senator Wilson was quiet and orderly, though the military were under arms to quiet any disturbance.

The three days' festival of the firemen begins to-day at the fair ground, for the benefit of widows and orphans.

FROM RICHMOND.

Fears of Trouble with Negroes—Election of Assistant Episcopal Bishop.

RICHMOND, May 17.—The *Whig*, to-day, says the negroes in the neighborhood of Carbon Hill pits, have rendered the land proprietors and other citizens uneasy by their threats of confiscation in accordance with their idea of legislation of Congress. Those threatened with violence have appealed to Gen. Schofield for protection.

A telegram to the *Dispatch*, from Staunton, announces the election by the Episcopal Convention of Rev. Francis M. Whittle, of Louisville, Ky., as Assistant Bishop of Virginia.

Fire in Chicago.

CHICAGO, May 17.—Kirk & Co.'s soap and candle factory, No. 35 River street, was destroyed by fire this evening. Loss $100,000, nearly covered by insurance.

Methodist General Conference—Second Day's Proceedings.

The Methodist General Conference re-assembled in Cleveland on Thursday, and was opened with religious services, conducted by Rev. J. B. Graham, of Pittsburgh district.

Rev. Alexander Clark, an alternate from Pittsburgh district, was elected to membership in the Conference, in the absence of Rev. John Cowl.

Rev. W. H. Brewster, of Pittsburgh District, submitted a paper on the subject of Temperance, approving of the National Temperance Society and the formation of a Congressional Temperance Society, which was adopted by a rising vote.

Rev. T. B. Applegate, of New Jersey, offered the following, which was referred to its appropriate committee:

Resolved, That this General Conference view that part of the Constitution contained in the second and third sections of Article 6, in conjunction with the ninth section of Article 7, as conferring upon each Annual Conference the power to prescribe and regulate the mode of stationing ministers and preachers within its district, provided, always, that they grant to each minister, preacher, or delegate, an appeal during the sitting of the Conference.

Rev. H. B. Knight, Chairman of the Committee on the Status of the Conference, reported as follows:

Your Committee on the Status of this Body—or more properly on the relation of this General Conference with special reference to the Cincinnati Convention and the General Conference of the Methodist Protestant Church, held in Allegheny city in November last—beg leave to submit the following:

"We regard this Conference as the outgrowth or product of the Cincinnati Convention, and more remotely of the Convention held in this city in June, 1865. At the former the structure and functions of this Conference were provided for, and its labors necessitated. In proof of this we need only refer to the minutes of said Convention, pages 26, 38, 44, 47 and 48, and especially 48, for functions.

The resolution on page 44 of minutes of the Cincinnati Convention, we regard as an expression of enthusiastic purpose to consummate the Union. Its wording may not be as felicitous as could have been selected, but we cannot construe it except in harmony with the nature and work of the Convention. These were to provide for the existence of "The Methodist Church," and not to proclaim an inchoate state a finished one. It was to prepare a house that we went there, and not to enter it. We had family arrangements to make, and goods to pack and transport, which we have since done. Here we take final possession of our temple or ecclesiastical structure, dedicating it to God and Truth.

2. The General Conference held in Allegheny City was a body composed of but a part of the Cincinnati Convention. Its structure, functions and labors applied to such part, and only such. Its wish was to provide constitutionally for participating in the labors of *this* General Conference, and for becoming, what has proved to be a fact, the larger part of what is now the Methodist Church. In view of this they need to act purely and simply as Methodist Protestants, inasmuch as a mixed element would have vitiated their change of name and discipline, if not the tenure of their church property. Their wisdom in all this we commend, and their necessity we fully appreciate. Their addition to the discipline prepared by the Cincinnati Convention, we regard as provisional; we can recognize them as a part of the necessities connected with a transition state, and terminate with the hour they serve.

3. The Cincinnati Convention after providing for the existence of the Methodist Church, ordained that those who should constitute it at this date, whether less or more, should be represented in General Conference capacity at this place and time. We are the final body to sanction and seal its work. In so doing, we are to pass upon the discipline it provided for, amend and add thereto, according to the constitution which it gave us. The General Conference at Allegheny City was an episode, a thing aside to us, though a matter necessary and wise, to that part of us who were legitimately represented therein. Here we start, *de novo*, knowing no more, Methodist Protestantism, or Wesleyanism, or Independent Methodism,—only as we know an honored ancestry, a faithful keeping people, a record of noble deeds, and the gems from a Tree of Life, "whose leaves are for the healing of the nations."

4. Finally, your committee recommend that, except in matters of revision, this General Conference express its approval of the results reached by that held in Allegheny City in November last.

H. B. KNIGHT,
J. M. FLOOD,
J. FORDYE,
T. J. FINCH.

The paper elicited considerable discussion by several brethren, which resulted in it being finally recommitted.

At the afternoon session, Rev. Dr. Brown, on behalf of the Executive Committee, reported an addition to Section IX., item 9, of the Amended Discipline, recommending that ministers and members receiving letters of dismissal be held responsible to the church giving such letters until they be received by another Church or Conference, or until such documents become null and void by limitation of time.

After considerable discussion the item was laid on the table for the present.

The Committee on *status* reported as follows—the report being the same as that made during the morning session, with an amendment to the first item, which was made to read thus:

"Your Committee on the *status* and relations of this General Conference to the Cincinnati Convention, and to the General Conference of the M. P. Church held in Allegheny City, would respectfully submit the following:

1. We regard this Conference as the outgrowth or product of the Cincinnati Convention, and more remotely of the Convention held in this city in June, 1865. At the former, the structure and functions of the Conference were provided for, and its labors necessitated. In proof of these we need only refer to the minutes of said Convention, pages 26, 38, 44, 47 and 48.

The resolution found on page 44 of the minutes of the Cincinnati Convention should be construed in harmony with the nature and functions of said body. The union whose foundation was there laid, we hail as of God; and those who participated therein are bound in good faith to labor to extend its aims and results. We, as a General Conference are to care for and promote what has been done by applying the constitution and discipline under which we act to all the interests committed to our charge. Adopted.

There was quite a spirited debate on the propriety of erasing the terms "episode," "a thing aside" and "*de novo*" from the third item of the above report.

While this subject was under discussion the Conference adjourned on time.

A schooner, named Westmoreland, was launched from Derbyshire's shipyard, Chester, Pa., on Tuesday morning.

STATE ITEMS.

A lad named Albert Allen, aged fifteen years, ran away from his parents' residence in Linesville, Crawford county, on the 2d inst., taking with him some two thousand dollars in greenbacks, the property of his father. No trace of him has been discovered.

A meeting of the Pennsylvania Reserve Association will be held at Harrisburg, on the 30th inst. An oration will be delivered at a grand banquet to be given on the occasion.

It is proposed to have a grand parade, military manœuvers, &c., by the returned soldiers of Brownsville, Bridgeport, West Brownsville, and surrounding country, at the first mentioned place, on the Fourth of July.

It will interest the citizens—especially those who pay taxes—of Washington county to learn that since the last audit the Commissioners have reduced the county debt $49,000, by buying the Hempfield Railroad bonds, paying for them eighty-five cents on the dollar. There will be a new jail built this summer, which will increase the debt as it now stands, but little, if any.

Messrs. Kauffman & Long, of Mechanicsburg, Cumberland county, propose to deed, free of all charge, a certain amount of land to any man or men who agree to erect thereon and operate a manufactory that will employ fifty or more hands, the land lying within the borough of Mechanicsburg.

James S. Jennings, for twenty years the publisher and editor of the Waynesburg *Messenger*, has severed his connection therewith, and is about to remove to Athens, Ohio.

CITY MATTERS.

TO COAL MERCHANTS.—The attention of coal merchants and others is directed to the card of B. W. Hall & Co., offering for sale coal lands at the mouth of Green River.

EDUCATIONAL ASSOCIATION.—A stated meeting of the Educational Association of Western Pennsylvania, will be held in the hall of the Third and Tenth Wards School building, on Grant street, this morning at ten o'clock.

LIBRARY COMMITTEE.—The Board of Managers of the Allegheny County Soldiers' League have appointed the following gentlemen as a Library Committee: Jos. E. Oxley, J. C. Martin, A. Patterson, E. Lyon and T. McG. Benner.

NEW CARS.—The Allegheny Valley Railroad Company have just received two new first class passenger coaches from the East, which will be placed on the road in a few days. The coaches are elegantly finished.

NARROW ESCAPE FROM DROWNING.—Some men were attempting to move a raft at the Allegheny wharf on Thursday evening, when one of them was swept off by the line and made a narrow escape from drowning. He sank twice, but was rescued as he was going down a third time.

HORSE STOLEN.—The stable of Mr. James Mehoon, in Elizabeth township, was entered on Monday night last, and a valuable blood bay horse stolen. A reward of thirty dollars is offered for the recovery of the horse, and two hundred dollars for the arrest and conviction of the thief or thieves.

BASE BALL.—A match game of base ball was played on the West Common, Allegheny, on Thursday afternoon, between the Enterprise and Olympic Clubs, resulting in the success of the Enterprise, the score standing as follows: Enterprise, 29 runs; Olympic, 7 runs.

A MISSING MAN.—James Yates, a native of England, arrived in this city on the 23d of June last, and left for Harrisburg in the succeeding July, since which time nothing has been heard of him. Any person who can give any intelligence of his whereabouts, will confer a favor on his family by addressing Mr. B. Campbell, Chief of Police, Harrisburg.

FOGLER'S FUNERAL.—The body of Robert Fogler, who was hanged at Washington, Pa., on Wednesday last, arrived in Georgetown, Beaver county, yesterday morning, where it was buried by his relatives. A large number of persons were at Smith's Ferry when the body arrived there, attracted doubtless by the supposition that the coffin would be open and the remains of the condemned exposed to view. They were, however, disappointed, as the coffin was immediately taken across the river to Georgetown.

"INJUN MEAL."—A. M. Griswold, the popular comic writer known as the "Fat Contributor," will deliver his amusing lecture, entitled "Injun Meal," in this city some night next week. The "Fat Contributor" has a reputation as a writer of the ludicrous second only to the late Artemus Ward, although "Mark Twain" aims to dispute the palm. His lecture is said to be very funny, and will, no doubt, prove a success here as it has elsewhere.

A NOVEL CASE.—Yesterday Joseph Platte, a resident of the borough of Sharpsburg, entered suit against Peter Ott, his father-in-law. The information alleges that in December last Ott agreed with Platt that in case he would marry his daughter he would give him $700. Platt performed his part of the contract, but the old gentleman, although repeatedly urged to pay the amount stipulated, declined to do so. The case will go to Court.

CITY MORTALITY.—Dr. A. G. McCandless, Physician to the Board of Health, reports the number of interments in the city for the week ending May 12th, 1867, at eighteen. The causes of death were as follows: Consumption, three; disease of the brain, two; peritonitis, two; debility, two; disease of chest, one; old age, one; diptheria, one; still born, one; bronchitis, one; whooping cough, one; convulsions, one; cholera infantum, one; inflamation of bowels, one. Of the above four were males and fourteen were females. Nine were adults and nine were children. Seventeen were white and one was colored.

THE RAILROAD ACCIDENT NEAR STEUBENVILLE.—We were in error yesterday in stating that the accident near Steubenville, on Wednesday night, resulting in the death of a man, occurred on the Pan Handle Railroad, as it took place on the Cleveland and Pittsburgh Road. The accident occurred in the "deep cut" three miles above Steubenville. The engineer of the train did not see the man, who was lying on the track, until the engine was almost on him. The train was running at such a speed it could not be checked until the man was struck, and cars, three in number, had passed entirely over him. The train backed and took up the body, which was so horribly mangled that recognition was impossible. Half the face was torn off and mashed, the body cut and limbs broken and stripped of their flesh. The remains were taken to Steubenville. The deceased was unknown, and was apparently about thirty-three years of age, five feet seven inches high, had on dark pants, black sack coat, and soft black hat. There was nothing on the body to identify him.

Interesting to Sportsmen.

We have been shown by C. M. Spencer, Inventor of the terrible Spencer Rifle Seven Shooter, Roper's American Breech Loading Four Shooting Shot Gun, manufactured by the Roper Repeating Rifle Company, at Amherst, Massachusetts, under his supervision. The gun is simple in construction, uses common ammunition, and fires four shots by simply cocking and discharging the piece.

Mr. Spencer will exhibit the gun this afternoon at two o'clock, at Oakland Park.

Our sportsmen will be well repaid to be present and witness its operation.

Arrival of the Prize Hose Carriage.

The prize hose carriage, to be awarded to the Fire Company receiving the highest number of votes at the approaching Soldiers' Monument Fair, arrived in the city yesterday from Philadelphia. The carriage was built by Mr. Frazier, of Philadelphia, under the superintendence of David M. Lyle, Esq., Chief Engineer of the Fire Department of that city. The carriage is a magnificent and well finished one, and was purchased at a cost of twelve hundred dollars. The wheels are of polished hickory, striped with blue and gold, and the running gear is highly polished. The carriage is adapted to be drawn either by hand or single or double team, and from its appearance, it is judged, will be an easy running vehicle. The interest in the contest, which would have been more intense had the Pittsburgh fire companies taken a part, will no doubt, however, be very great, as all the Allegheny and the borough companies will enter into the contest. The carriage will be on exhibition to-day at the carriage manufactory of C. West & Co., on Liberty street, near the foot of Fourth.

THE COURTS.

DISTRICT COURT.—Before Judge Hampton.

Yesterday morning a motion was made that the judgment of non-suit be taken off in the case of R. R. McQuiston & Co. vs. the Monongahela Navigation Company. A motion for a new trial was also made in the case of Wm. T. McClurg vs. J. F. Duncan.

John H. Cassiday for use of the Real Estate Saving Bank vs. Catharine Linder, impleaded with John Linder. Action to recover balance alleged to be due on a mortgage on property in the Ninth ward, executed by defendant. The mortgage was executed by John Linder on property owned by his wife, and payment was contested on the ground that Mrs. Linder's name was secured to the document by threats of violence made by her husband. The jury returned a verdict for defendants.

COURT OF COMMON PLEAS.—Before Judge Stowe.

In the case of Joseph and Nathan Stein vs. Owners of steamboat Urilda, the jury failed to agree and were discharged by the Court.

Martin Bushert vs. Adam Hoffman. This was an action to recover for injuries sustained by a child of plaintiff, from a bite by a dog owned by defendant. At the time of the injury plaintiff instituted proceedings against Hoffman for keeping a ferocious dog, but the suit was subsequently withdrawn upon defendant promising to pay expenses incurred for medical services, and killing the dog. The payment of expenses was afterwards refused, and the action is brought to recover the amount. Verdict for plaintiff for thirty-seven dollars damages, with costs.

UNITED STATES DISTRICT COURT.—Before Judge McCandless.

The case of P. R. Kincaid, for use, vs. J. C. Bidwell, was called up yesterday morning, when a motion to suppress the deposition taken by defendant was made, and a rule to show cause why the deposition should not be suppressed was granted.

A non-suit was entered in the case of Kennedy Marshall vs. Heydrick Brothers, owing to the failure of the plaintiff to appear.

The cases of E. A. Roberts vs. A. E. Nickerson and E. A. Roberts vs. Alexander Hammers, being suits in chancery for infringement of patent rights were continued.

The business of the term having been concluded, the jurors in attendance were discharged, and Court adjourned.

Public Amusements.

ACADEMY OF MUSIC.—The new management cannot but feel gratified at the success of their enterprise. Large, fashionable and intelligent audiences have attended the Academy since its opening, and the sterling actor, James E. Murdoch, has delighted them with some of his best performances. It is wonderful to see with what ease and grace Mr. Murdoch renders "Rover," "Alfred Evelyn," "Charles Surface," which are all youthful characters. To-night Mr. Murdoch will be the "Mrs. Haller."

The first matinee at the Academy will be given this afternoon at two o'clock, when "Who Killed Cock Robin" and "Mr. and Mrs. White" will be performed. Mr. Hale, the accomplished comedian, will have an opportunity of showing how funny a comedian can be without violating the text. Admission twenty-five cents.

OPERA HOUSE.—A "Black Crook" matinee will be given this afternoon—admission fifty cents. In the evening the "Black Crook" will be performed for the thirteenth time. Last night the Opera House was filled as usual, and the play continues to maintain its attractiveness.

THEATER.—A matinee is announced for half-past two this afternoon. In the evening, a great bill will be presented, including an exciting Irish drama, a comic pantomime, a grand ballet, and minstrelsy.

VARIETIES.—Another ham presentation will take place this evening, and although the "Black Cook" will be presented, the bacon will not be ready for the table when the lucky individuals get it. Drama, burlesque, songs and dances, to-night.

Local Religious Intelligence.

The Young Men's Prayer Meeting will be held this evening, at half-past seven o'clock, in the Lutheran Church, on Seventh street, between Smithfield and Grant streets. All are invited.

Rev. E. P. Crane, Professor in the Western University, will preach in the Plymouth Congregational Church, on Hand street, to-morrow morning and evening. Services will commence at the usual hour.

The Vestry of Christ (P. E.) Church, Allegheny, of which Rev. D. C. Page, D. D., is Pastor, have directed the suspension of Divine service until some time in the coming autumn, for the purpose of making extensive alterations and repairs, designed to make it one of the most elegant and attractive church edifices in either city. Due notice will be given when services can be resumed.

The new Methodist Episcopal Church at Sandy Creek, nine miles from this city, was dedicated on Sunday last to the worship of Almighty God. The pastor, Rev. W. W. Roup, was assisted by Rev. S. H. Nesbit, of this city, and Rev. W. McCracken. The small society worshipping in the place has a brief but interesting history. More than a year ago, Rev. McCracken began to hold meetings at Sandy Creek—preaching at first in a private house, and then in a school house in the vicinity. From this grew a small band of believers, regularly meeting to promote piety and virtue. A house of worship was then needed. To promote this object Messrs. Kier, Foster & Kier, who own and are working coal mines in the neighborhood, proposed to donate a lot and five hundred dollars towards paying for the house. A subscription of over five hundred dollars was soon secured, members of other churches liberally contributing. A house was built for $1,304. At the dedication about two hundred and fifty dollars remained to be provided for. Rev. Mr. McCracken, who has chiefly managed the whole enterprise from the beginning, soon succeeded in raising this amount. By liberal deeds the community have now a neat house of worship in which to meet for prayer and praise. The new church is to be called Foster Chapel.

The time for the holding of the M. E. preachers and district stewards' meeting of Uniontown District, at Elizabeth, this county, has been changed. Instead of the 3d and 4th of June, it will be held on the 18th and 19th of said month. The district stewards' meeting will take place on Tuesday afternoon, the 18th.

The M. E. Preachers' Association of the Washington district will meet at Washington, Pa., on the 10th, 11th, 12th and 13th of June next.

Rev. J. L. Deens, Presiding Elder, announces that the meeting of the Barnesville District Association is deferred to a later date than the 21st of May.

During the past year, the church membership in the West Virginia M. E. Conference, grew from 20,257 to 26,783, making a net gain of 6,526. This is nearly thirty-three per cent. of an improvement. One church and five parsonages were built adding to that form of property $30,250. There is also a reported increase of 4,491 scholars in the Sunday school.

The Convention of the Diocese of Pittsburgh, which is to meet in Erie on the 21st inst., will be an occasion of unusual interest. This body is composed of Bishops, Clergy and Laity of the Episcopal Church in the twenty-five counties west of the mountains composing the Diocese of Pennsylvania. All the clergy are members of the convention, and each parish is represented by its rector and the delegates from among its members, electing its vestry. The clergy and laity deliberate in one body, but the vote must be by orders, if called for by any five members, so that like the two houses of the Assembly of Congress, the consent of both is necessary to give validity to a measure. The Bishop presides, and is the executive officer of the church. Besides the ordinary business, constitutions will be reported and discussed, for the convention and Diocesan Board. The convention meets on Tuesday, at 5 o'clock P. M., for organization, appointment of committees, &c. On Wednesday morning the convention sermon will be preached, followed by holy communion. The convention will then hear the Bishop's annual address on the state of the church, the work of the past year and plans for the future, after which the proper business will be taken up. The convention will continue through Thursday and possibly Friday, there being two sessions a day, viz: morning from nine to one o'clock afternoon from three to six.

POLICE INTELLIGENCE.

[Before Mayor Morrison, of Allegheny.]

ASSAULT AND BATTERY.

Michael Kelter appeared yesterday and made an information for assault and battery against Joseph Debold and John Debold. The parties reside at Girty's Run, and the defendants were employed at the rolling mill at that place. Kelter, it appears, was accused of accepting work at lower wages, and the defendants took it upon themselves to call him to account. A quarrel ensued, during which Kelter was badly beaten. Warrants were issued for the arrest of the accused.

ARRESTED.

Jerry Coslow was arrested yesterday by officers Scott and Campbell, charged with breach of the peace, in breaking open the shutters in the house of Mrs. Ann Shively, on First alley, in the Third Ward, Allegheny, and disturbing the peace of the neighborhood. The information was made some time ago, but Coslow managed to elude arrest until yesterday. He was locked-up for a hearing.

[Before Alderman Taylor.]

ALLEGED LARCENY.

John M. Curran appeared yesterday and lodged complaint against one Con. Crowley, charging him with larceny. The two were fellow passengers on the Allegheny Valley Railroad, and arrived in the city on Thursday evening. During the trip, the deponent alleged, the accused stole from his pocket-book, containing twenty dollars. The accused was arrested and had a hearing, which resulted in his discharge, the evidence failing to fasten the guilt on him.

FALSE PRETENSES.

A man named Gillespie was arrested, charged with obtaining five dollars under false pretenses from J. M. McKee, of the Fifth ward. Before the time for the hearing came up, the parties settled the case by Gillespie returning the five dollars to McKee, and paying the costs in the case. The accused was then discharged.

[Before Alderman Strain.]

ABANDONMENT.

Mrs. Jennie Bowman appeared at the office of this magistrate yesterday, and instituted suit against her husband, Addison Bowman, charging him with abandonment. Addison was arrested, and committed to jail for a hearing to-day, in default of three hundred dollars bail. He afterwards procured the necessary security, and was released.

OFFICE IMPROVEMENTS.

Owing to the large increase in business, Alderman Strain has been compelled to enlarge his office, and has rented an additional room in the rear of his office at No. 112 Fifth street, which has been fitted up in handsome style. The Alderman has now three rooms in which to transact his business.

[Before Justice Ammon, of East Birmingham.]

TWO CHARGES.

James Mooney was arrested yesterday on two charges, one for assault and battery, and the other for surety of the peace. Mrs. Annie Morris alleges that Mooney attacked her and struck her, injuring her quite severely. Mrs. Elizabeth West charges him with having threatened to kill her with a butcher knife. The accused was held for trial on both charges.

Musical Sights at the Paris Exposition.

The Paris correspondent of the New York *Weekly Review*, Edmund Remack, reports the following interesting musical items:

I am told that Mdme. Parepa is to sing here in July. Is this true? I hope so for my own sake, as I have not yet heard, in Paris, so excellent and versatile an artiste.

The American Pianos at the Exposition have excited a great deal of astonishment, and especially the Steinway pianos have created a perfect sensation from the fact of their proving, in an irrefutable manner, that by the overstrung system every piano can be made with a perfection which can never be reached in pianos made after the old style of straight cords. Some time ago you remarked in your paper that the new patent pianos of Messrs. Steinway were destined to create a revolution in piano making. I can now tell you, without the slightest exaggeration or deviation from plain and manifest facts, that your prophecy has been fulfilled in the most emphatic manner. The majority of all European pianos exhibited are made after the Steinway system, and the largest and most respectable piano manufacturers, whose names I am ready to give you, acknowledge that the manner of making overstrung pianos has been so altered and improved by Messrs. Steinway, that their system is now universally conceded to be the triumph of the highest genius. Those manufacturers who have been most reluctant to allow that the Steinway pianos are built in a manner different from all other instruments, freely confess that they have been imitating the Steinway system for the last four or five years, and now ask permission to study the new patent which has made the Steinway piano the first in the world. The French manufacturers are also convinced that the Steinway system is the only one which will be applied in the manufacture of pianos in future; but it is natural that firms like Pleyel & Herz should fight bitterly against a system which has thrown them from the height of their reputation. Lively times are expected, and I shall inform you of the progress of the battle, which promises to be very interesting.

Ullman is in town, looking brighter and even more handsome than when he delighted the citizens of New York by his appearance. He has engaged a troupe for America.

Carleton at the Great Exposition.

"Carleton," the well known correspondent of the Boston *Journal*, writes from Paris concerning one feature of the Great Exposition, as follows: Perhaps the greatest attractions in the American department are the grand pianos contributed by Chickering & Sons. I chanced to be present yesterday afternoon to hear Wehli, the celebrated modern composer and pianist, play several compositions from the great masters, also some of his own studies. The first touch of this master brought a crowd to the spot which completely filled the surrounding space. The multitude expressed their satisfaction by repeated cries of "*bravo! bravo!*" and the clapping of hands. In musical circles the Chickering piano seems to be the chief topic of conversation. Some of the most celebrated artists of Europe—Ritter, Kastner, Poznamki, Stoerger, Wolff, Boscowitsz, and many others well known on this side of the Atlantic, though perhaps not much known in America, have tried them. It may be said that they have created a profound sensation, both among players and manufacturers.

There is perhaps more competition in the musical class than any other. Almost every nation has pianos on exhibition. *La Musicale*, the musical paper of Paris, says that this part of the exhibition is the most rich and also the most attractive of all. It also says of Chickering's pianos: "They are played to the great joy of the visitors who are ravished and charmed, not only by the marvelous execution, but by the admirable sonorousness of the instruments of the most celebrated manufacturer of the United States." A detailed account of the construction of the instruments is given, the points wherein they differ from all others, and which gave them their peculiar richness of tone.

The *Gazette Musicale* has two enthusiastic articles upon these pianos, the first giving an account of a series of concerts at the "*Athenee*," in which the Chickering instruments were used, played by Ritter, who gave one of Mendelssohn's concertos, accompanied by an orchestra; and the second, a more extended account of the instruments in the exhibition, the peculiarities of construction, richness and beauty of tone. From all sides I hear nothing but hearty praise of these instruments. Where the competition is so sharp, it is altogether uncertain as to who will win the prizes, but if it were left to artists and the public generally, Chickering & Sons would most assuredly obtain it.

FOR SALE--REAL ESTATE.

FOR SALE—FARM—A splendid piece of ground containing 39 acres, well improved, in a good neighborhood, near Ingram Station, on Pittsburgh, Columbus and Cincinnati Railroad, will be sold on reasonable terms. Any one wishing to buy property with good buildings, and splendidly improved under a very high state of cultivation, are invited to look at this property before purchasing elsewhere. For further particulars inquire of WM. PETRIL, on the premises.

FOR SALE—LOT OF GROUND—One Acre of Ground, delightfully adapted for a Country Residence, or is susceptible of being laid out very advantageously into lots. This lot is within 400 feet of the Greensburg Pike, and adjoining Winebiddle's Grove; it has a front of 250 feet on Pearl street. This is a very desirable property, and will be sold cheap. DEVLIN & SILL, Real Estate and Insurance Agents, Butler street, near Belfontaine, Lawrenceville.

FOR SALE—COUNTRY HOMES—That very desirable property, situate in Wilkins township, on the line of the Pennsylvania Railroad, and within five minutes' walk of Brinton and Turtle Creek Stations. It is intersected by the Pittsburgh and Greensburg Turnpike, and by the Plank Road leading through Braddock's Fields to Pittsburgh, and is in the immediate vicinity of the village of Turtle Creek. Forty Acres of the property lying along Turtle Creek is sub-divided into lots containing from 4 to 8 acres each, of the richest alluvial creek bottom soil, and admirably adapted for gardening purposes. The remaining portion of the property, containing over 50 acres, is subdivided into lots of from one to thirteen acres, each suitable for choice Building Sites. To those desiring a country home in a delightful location, near to Churches and Schools, easy of access by Railroad, Turnpike or Plank Road, this property presents many advantages. For gardening purposes the ground cannot be excelled. The frequent and rapid communication with Pittsburgh by Railroad renders it equal to garden plots in the immediate neighborhood of the city. Parties wishing to purchase can obtain one or more lots at reasonable prices and on easy terms, by applying at the Real Estate and Insurance Agency of DEVLIN & SILL, Butler street, near Belfontaine, Lawrenceville.

FOR SALE—TRACT OF LAND—A valuable Farm of 52 acres, situate at Nine Mile Run, being 9 miles from Pittsburgh, on the Connellsville Railroad. This property is susceptible of being laid out into country seats and building lots, or for gardening purposes, as the soil is very rich and has a Southern exposure. There are 2 or 3 very valuable springs on the property. It will be sold on reasonable terms, as the owner has moved to the East. Apply at the Real Estate and Insurance Office of G. F. BATES, Butler street, Lawrenceville.

TO THE COAL MERCHANTS AND OTHERS.—The undersigned has for lease or other disposition, a quantity of SUPERIOR COAL LANDS, accessible to the Ohio river at all seasons of the year by any sized coal barges, at the mouth of Green River, opposite Evansville, Ind.
This coal is superior to the best Pittsburgh coal. It makes no clinker, no cinder. It is bituminous, and is nearly free from sulphur. It makes bar iron nearly equal to the best charcoal iron. It makes more and brighter gas, to the same number of pounds or tons of coal, than the best Pittsburgh. Its convenience for mining cannot be surpassed. The coal can be dropped into the barge in from 30 feet to 100 yards from the entries. The entries are a little above high water mark. In the burning of 100 pounds the residuum is from 1½ oz. to 2 lbs. A sample of the coal can be seen at Messrs. Horner, Woods & Co., No. 69 Water street, Pittsburgh, and where one of the partners may be seen every day. Several Pittsburgh coal dealers have made extensive leases already. Six or eight more can yet be accommodated. A singular advantage is that we own every acre of this fine coal, and parties leasing can have no competition with it whatever. Vein four feet thick.
Enquire for Col. Payne, at Messrs. Horner, Woods & Co., or at the Monongahela House.

JULES JARED'S
"EMAIL DE PARIS,"
THE NEW
BEAUTIFIER OF THE SKIN

Testimonials from Celebrated Ladies:

The secret of beautifying the Skin being known only to Messrs. Jared & Rene, they honestly state that it differs from all other preparations. It gives to the most harsh and freckled skin both the color and texture of polished ivory, removing all discolorations, whether appearing as freckles, tan, morphew, moth or black-worm specks, and is especially successful in smoothing out the marks left by small-pox.
The agents of "Email de Paris" most confidently submit to the public the earnest endorsements of such distinguished ladies as

Signora Ristori, M'lle Felicita Vestvali, Miss Maggie Mitchell, Mrs. D. P. Bowers, Lucille Western, Mad. Ponisi, Mrs. Emma Waller, Lucy Rushton, Noemie de Marguerittes, Miss Agnes Perry,

And many others, whose high standing in the profession gives the stamp of truthfulness to their intelligent and genuine approval.
The beautiful Lucille Western says:
I find that the "Email" produces all the brilliancy of rouge and lilly white, with the great and peculiar advantages of perfect harmlessness. It really adds to the softness and beauty of the skin.
The Magnificent Vestvali says:
I have suffered so much from the various white lotions, &c., which my theatrical profession obliges me to use, that I consider it a perfect benefaction to find a preparation which gives the necessary whiteness to the skin, and leaves the skin cool and smooth.
Miss Maggie Mitchell says:
I have tried the skin beautifier "L'Email de Paris," and found that it instantly imparts a natural bloom and freshness to the complexion.
"Jared Email de Paris" is used as a delicate beautifier of the skin for Theater, Saloon or Ball Room, by the most refined and scrupulous ladies; producing all the beautifying effects of rouge and lilly white, without their vulgar glare or injury to the skin.
Sold by all first-class Druggists, Perfumers and Ladies' Hair Dressers.

The Daily Commercial

SATURDAY, MAY 18, 1867.

THE applicants for an injunction to stay the operation of the Reconstruction law are fairly out of court, the decision in each case being against them. It is said, however, that the question will be taken to the Supreme Court on an appeal, the court having dismissed the application on the ground it had not original jurisdiction. It will be some months, we conclude, before a decision can be had on the merits of the application, after reconstruction shall have been as good as accomplished.

IT is estimated that the fighting warriors of the Indian tribes, any ways likely to be hostile, do not exceed five thousand in number. The report started awhile ago, that General AUGUR was about to move with six thousand troops, and that eleven thousand Indians were on the line of march, is pretty much moonshine. When he does move, it will be with a force of about two thousand men. The Indians, no doubt, are doing a good deal to get up a war, but the speculators, in proportion to their numbers and supposed civilization, are doing a good deal more. Between them the Government is likely to suffer some.

WE believe in trusting some things to the honor and honesty of men. But in matters where the indefinite party, called *the public*, is concerned, and individuals have this public to deal with, we do not believe it safe to rely upon the honor and honesty of every one. Hence, we should feel much better satisfied, if the market arrangements and sales were under the supervision not merely—for that is a slight check—but under the rigid scrutiny of a competent officer, who would by his own knowledge ascertain if unhealthy food were offered in the market, and who would also, by his authority and power, expel it and prosecute those who offer it. If the statements on this subject be not true, the truth should be made to appear. But if they are true, the abominable imposition and danger ought to be remedied at once.

THE New Orleans riots last year were alleged by the so-called convention and Democratic press, to have been gotten up by Republican influence for the express purpose of furthering the party interests, even though it should be by the violent death of a few dozens of its friends. The same allegation has not yet been made, but would be if required, concerning the fatal riot in Mobile. This most recent exhibition of rebel feeling was evidently concerted beforehand. And it is equally evident that the principal failure was the failure to kill the speaker, Mr. KELLEY. The partial and false statements in the telegram that first brought intelligence of the outrage, afford proof of the bad spirit of the place. The resolutions of exoneration passed afterwards are not sufficient to counterbalance the act itself, and the previous tone of the press in sympathy with the act, if not inciting to it.

SECRETARY MCCULLOCH, since the revenues have begun to fall off alarmingly, has, we have reason to believe, commenced to look about to see what is wrong. Perceiving that the manufacturers, who heretofore have been his best are becoming the poorest customers, his attention is necessarily drawn to that quarter. If he will give half an eye to the matter, he will find tens of thousands of mechanics out of employment, and millions' worth of machinery idle. And if he will continue his investigations he will find that miles and miles of Railroad track are every day laid with foreign iron, transported right by our idle mills and unemployed mechanics. For months there has been, and there still is a brisk demand for rails; but the other fact is, the demand is largely supplied by foreign makers—what little our home manufacturers supply is, by reason of the foreign competition, at profitless rates.

There are many more facts of this kind—lying round loose, as the saying is—and if the distinguished Secretary will take the trouble to gather them up they may assist him to a better understanding of the only true policy.

THE DEBT AND THE PROSPECT.

It has been intimated, it has perhaps been declared by the Secretary of the Treasury, that the reduction of the Public Debt will probably be suspended for a while, owing to the diminution of the Internal Revenue under new legislation, and to the expenses of the Indian war, which appears to be on a pretty large scale.

On this ground, some of the public papers indulge in a dolorous and alarmed strain which, when not attributable to party spirit, appears childish and pitiful. We can easily see reasons for this course in the rabid party journals of the Democratic sort. Hoping to bring odium on the party in power, and to alienate some of its members, they make capital for both purposes by inciting discontent under taxation—always the expedient of demagogues—and by holding out the idea that it is to be indefinitely continued.

But we are not a little surprised to find the New York *Times* indulging in the same strain. We have no exceptions to take to the practical application it proposes for its doctrines and fears. But we think it wrong in both, and unsupported by the argument it adduces. From the retrenchment in personal and family expenses, observable in the diminished number of costly equipages seen in Central Park, from the prevalence of private economy, from the caution exercised in expenditures and in business, the *Times* draws materials for despondency with regard to the future, and also takes occasion, like the lower stratum Democratic journals, to utter worse than a Jeremiad on the taxation of the country.

Now, while we accord, as intimated above, with the practical application, in favor of *public* economy and care in expenditures, we take encouragement from the indication given of private economy and retrenchment. We attribute it to the partial extinction of the shoddy race, absurdly prodigal of suddenly acquired wealth, and to the recurrence of a more sane and rational style of living among the really wealthy. The immense incomes reported, as subject to taxation, last year, were largely owing, as the *Times* intimates, to business transactions much more extensive than those of this year, and also to prices and profits much more exorbitant. The change consists in having more money saved to the community at large, and less aggregated in the hands of a few persons. And the ultimate result will be, not a diminution of the wealth of the country, but a better distribution of it, and under this condition, the revenue from taxation will come from smaller streams and its inflowing current will be more steady, sure and reliable.

SEVERE REMEDIES.

It is stated that concerted action has been resolved on by some of the best citizens of Saline county, Missouri, for protecting and freeing themselves from bands of lawless men who are committing thefts, robberies, murders and other crimes in their vicinity. The bandits, it is alleged, bid defiance to the legitimate authorities of the county, and appear to be deterred neither by conscience nor fear from committing crimes against property or persons.

The organization of some extraordinary system of defense is but in accord with the first law of nature in such cases made and provided. And the further application of this organized effort to the positive work of removing the disturbers and assailants of society is also according to the provision of the same law. All this is too plain to be overthrown by the application to such organization of society power, of the offensive name, a Vigilance Committee. The resort to this extreme measure is not necessary, except where the administration of law and justice in the usual forms and by the ordinary processes, is rendered impossible either through the corruption of public functionaries or through their power being overborne by the lawless power opposed to it.

In such case if an effective co-operation of the social elements can secure the order and safety of society, we see no good reason to object to it. Its liability to abuse and perversion, which is admitted, is no greater than could be alleged against any other compact or co-operation in society. The difference between this and mob law is, that it always contemplates the support and good of society by taking the place of law obstructed or superceded by lawless force, while mobs and riots are with equal uniformity the violators of law, and damaging to society. Of course the administration of law by its proper functionaries secures the best condition of society. But in those cases where they are found inadequate—rare cases, yet sometimes occurring—society, peace, order, life are not to be resigned to despair. It is better for judicious, law-abiding men in a community to pluck peace and order from beneath the feet of lawless men, and to preserve society from utter ruin.

Legislative Corruption.

The Uniontown *Standard*, the Republican organ of Fayette county, in a lengthy editorial article on "Legislative Corruption," favors the call for a Reform Convention, in order to provide against the recurrence of such scenes of corruption as are charged to have taken place last winter at Harrisburg. The *Standard* says:

> But the Harrisburg organ of the Republicans says we have no proof of their corruption. Of course those who pay and those who receive will not testify to their own guilt. But it is well known to all visitors at Harrisburg, that there are there professional lobbyists, and when a local or private act is applied for, their first inquiry is—is there any money in it? If there is, they contract for, receive it, and divide it among the members whose votes are necessary to carry it. Now look at the acts of the last Legislature. They are said to number 1,600. Not ten of these are general laws. They are private acts—acts of incorporation—giving special privileges to select individuals—and every conceivable form of powers by which individuals are clubbed together in every county almost in the State. In nearly all these there is money—who will not pay for a commission to plunder? And then to facilitate the passage of these local enactments, it has become the rule, that no member shall oppose a local law, which the member from the District brings forward. He is permitted to be the exclusive judge of the propriety of its passage—and thus these laws are not in fact passed by the Legislature but by the representative of the District. Thus Thomas B. Searight is the Legislature of the Westmoreland District—heaven help us! By this contrivance we are delivered over to his tender mercies. And if he defeats the General Railroad Law, or should sell himself to the Pennsylvania Railroad, he informs us the thing is not his fault, but that of the Republican Legislature.

Contraction of the Currency.

The progress of the contraction of the currency, including compound interest notes, is shown by the subjoined table, giving the amount of United States notes outstanding at stated periods:

1865.		1866.	
June	$659,160,569	June	$564,140,458
September	684,138,909	August	566,873,868
October	678,126,948	September	555,115,732
December	620,290,438	October	554,677,432
1866.		November	538,707,925
January	614,780,430	December	532,323,989
February	612,451,264	1867.	
March	605,981,411	January	525,398,682
April	603,298,298	April	514,445,879
May	583,213,359	May	509,022,197

It will be seen that the decrease between June 1, 1865, and May 1, 1867, was $150,138,372. The National Bank notes meanwhile increased to the amount of $161,094,119. It therefore follows that there was a nett increase of the curency, including compound interest notes during this period of $10,955,747.

Turning of the Tide.

The New York *Times*, remarking on the diminution of the revenue returns, says:

> "The tide is turning. Business is dull—prices are so exorbitant that labor, which commands enormous wages, can scarcely earn a living—the profits of all branches of industry have fallen off, and everybody begins to feel comparatively poor. Evidences of this are seen in every direction. There is nothing like the expenditure among business men, or in society and private life, that was witnessed a year ago. The Park is no longer crowdod with showy equipages. Costly dinners, extravagant displays of wealth at evening parties, lavish expenditures for luxury in dress no longer characterize our fashionable circles."

The *Independent*, referring to the fall in rents in Broadway and other large business streets of New York, says the owner of a second story, who last year received $9,000, but for the next asked $13,000, has been glad to take $5,000.

A PARIS letter, dated the 30th of May, says: "The receipts of the Exhibition begin to be very considerable. Not less than 58,000 francs were realized last Sunday, in spite of the weather, and an equal sum on Easter Monday. Excursion trains are also beginning to be organized from the Provinces. From Nancy and Metz, a few days ago, 1,500 visitors were suddenly poured into the capital, and other railways are following the example. The Emperor and Empress pay frequent visits to the scene of attraction; the last time they went in a plain coupe, without attendants or ceremony of any kind, and in the simplest manner; the Empress, on the latter occasion, wearing a plain black silk dress and cloth jacket, while the Emperor, leaning on a good strong stick, looked like the quietest and most easy-going of middle-aged gentlemen."

JEFFERSON DAVIS, while in New York, was not welcomed as an honored guest, but, on the contrary, was visited by a comparatively few persons. A leading journal says: "The considerate citizens" of New York "cannot forget, nor are they yet ready to forgive, the part he has played in the awful tragedy through which our country has passed; nor can they hold him guiltless for the dear lives that have been sacrificed in the effort to save the nation from destruction."

THE Washington *Star* denies that there is any foundation whatever for the report that John W. Forney received $200,000 or any other sum out of the sale of the Baltimore and Potomac Railroad to the Baltimore and Ohio Company. It says "he has not a particle of interest in the Railroad beyond the general interest felt by all public spirited citizens."

DRUNKENNESS IN AFRICA.—Du Chaillu, in his account of travels in Central Africa, says: I found tribes that were very fond of intoxicating drink, and that drank morning and night, many of them being nearly always intoxicated. They have four kinds of drink, which they make from sugar cane and plantain water, and they even take a pride in being able to make these drinks and get drunk. When I said to one of them, "What a horrible wretch you are, to be getting drunk in this way," he said to me, "I am not ashamed to get drunk. I am not like the gorilla, who knows not how to make drink, and can only drink the water out of the woods. I am able to make my drink good; gorilla drink only water; man can make whisky and drink it."

THE Philadelphia *Ledger* says "It is reported that the Pennsylvania Railroad Company, who have the management of the Pittsburgh and Columbus Railroad, are negotiating with a view, if possible, of obtaining the management of the Little Miami, Columbus and Xenia Railroads to Cincinnati, Ohio, and thus extend their through line direct from Philadelphia to Cincinnati, via Pittsburgh and Columbus. It is said that the Baltimore and Ohio Railroad in view of this fact, will endeavor to obtain the control and management of the Cincinnati and Zanesville Railroad, in order to compete with the Pennsylvania Central."

THE Canadian correspondent of the London *Post*, dating at Ottawa on the 13th of April, says: "In the event of a war between England and the United States the numerous and warlike tribes inhabiting the northwest would prove most valuable allies in defending that part of our frontier, and in any case the benevolent policy of the British and colonial governments towards them is likely to be amply rewarded. We must deplore the horrors which are likely to attend the new Indian war in the neighboring country, but at the same time we cannot blind ourselves to the fact that the Americans have brought the evil upon themselves."

Its icy hand falls alike upon youthful innocence and hoary-headed age. Some of the prominent symptoms are Cough, Expectorant, Shortness of Breath, Irritation about the Lungs and Chest, darting Pains in the Side and Back, Emaciation, and a general negative condition of the whole system.

The Rev. EDWARD A. WILSON'S Prepared Prescription for the cure of CONSUMPTION, ASTHMA, BRONCHITIS, COUGHS, COLDS, and all THROAT and LUNG AFFECTIONS, has now been in use over ten years with the most marked success.

The Remedy, prepared under Mr. Wilson's personal supervision, also a pamphlet containing the original Prescription, with full and explicit directions for preparation and use, together with a short history of his case, may be obtained of the following reliable Druggist.

JOSEPH FLEMING,
cor. Market street and the Diamond, Pittsburgh.

Each package will bear his written signature across the end of the box. For pamphlet containing the original prescription, the Prepared Remedy, or more full particulars, address or call on the above agent, or

Early Slave Trade.

It is almost about 300 years, since the African slave trade was first inaugurated under English auspices. And it is remarkable, as evidence of the estimate in which it was then held, that the commander of the first expedition engaged in it, John Hawkins, was knighted subsequently by Queen Elizabeth. Another circumstance, showing also something of the light in which it was held at the time, is this, that in Sir John Hawkins's second expedition, one of his ships bore the name of the Solomon and another that of the Jesus. It would now be deemed a shocking perversion of names, venerable for the wisdom and the goodness of the persons with whom they are historically associated, to apply them in such a way.

In the early times of this traffic, the slaves were regarded as persons—human beings of a low grade but still persons—having some of the powers and rights of humanity. They were first reckoned as chattels—like the Roman estimate of slaves as property, *inter res*—when they were legally made saleable, on execution, for their owners' debt. This, we believe, was as late as the time of George II., a little before the commencement of our American Revolution. Considering how atrocious the whole system was, it had a rapid growth. But it had, by the advances of civilization and civil liberty, a still more rapid decline and overthrow. In the retrospect, it looks like a horrid dream of the human race—a wonderful obliquity for our advanced position in the ages.

Our Imports and Exports.

From the report of the Director of the Bureau of Statistics, we derive the following particulars of the imports and exports of the United States during the first three months of the current year: Imports in January, February and March, gold value, $94,754,462. Exports in the same months in gold values $106,016,566—showing an excess of exports for the quarter of $11,262,104. This result, showing an excess of exports of over eleven and a quarter millions, in gold value, will be unexpected to many whose views as to the future course of gold have been regulated very much by an idea that the foreign exchanges were largely against us. Included in the exports are 288,063,423 pounds of cotton, amounting to $90,339,941 in currency, and averaging 31½ cents per pound.

JUDGE MARVIN, of Florida, late Provisional Governor, and the present Senator elect, is of opinion that the majority of old citizens of the South would prefer always to live under military rule, and without representation in Congress, rather than to come back into the Union with the disabilities imposed and with universal suffrage; and he thinks the peace of society there is better preserved by authority of military commanders than it ever will be by the civil authorities. Should the States generally become "reconstructed," as required by Congress, and thus get back into the Union, there is, says the Judge, a natural antagonism of races, and a prejudice even stronger than the natural hostility, which cannot be overcome, especially under circumstances of compulsion such as are prescribed to the South. Old masters will never be able to bring themselves into submission to civil government administered by their former slaves.

THE Richmond *Enquirer* thinks that the war of sections between the North and South has given way to a war of races, and says: "Blood is thicker than water. Woe, then, to the black man, when the country is divided into a white man's party and a black man's party! In the country at large it will be a contest of thirty millions against four; in the South, a contest of eight millions against less than four. It would require only a short sum in arithmetic to calculate how soon the contest would end in black extermination."

A. T. STEWART & CO. have announced that they will offer at auction, at New York, a portion of their importation of dry goods, and, as is natural, such a movement of so large and successful a house has been the subject of much conversation in the trade. The *Tribune*, in solving the purpose of the announcement, says: "The meaning of it is that the house comprehends the financial situation, and prefers to meet the present market rather than take less later in the season."

REBUTTING THE VERDICT.—It was charged in his trial by the Italian authorities that Persano was disinclined to fight. The cashiered Admiral has, however, no intention of remaining quiet under this aspersion, and, since the Government has deprived him of opportunities for a display of valor, he intends to make them. To begin with, therefore, he challenges to mortal combat an admiral and two captains who offered testimony against him.

THE Union Pacific Road trains run from Omaha to the North Platte, 293 miles in fourteen and three-quarter hours, including stoppages—running time thirty-five miles per hour.

OVER 60,000 pounds of New Mexican wool has been received at Kansas City this season, besides a large number of buffalo robes, pelts, &c. Much larger amounts are yet expected.

FILES! FILES!
THE AUBURN FILE WORKS
AUBURN, NEW YORK,

Would call the attention of manufacturers and those using Files and Rasps to the superior article of HAND CUT FILES, which they are now making from the best quality of Cast Steel, consisting of Flat, Hand, Mill, Saw, Round, Half Round, Square, Taper Saw Files, Horse Rasps, and all other kinds, which are in no respect *inferior to any now made.*

It accords neither with our taste or our principle to assert that our Files have never been approached by any other manufacturer. The Files must speak for themselves, and those who wish to purchase largely are sufficiently wise to accept the evidence of the files rather than the assertion of the manufacturers.

Your orders may be left with T. H. RICHARDS, Esq., 30 Fifth street, Pittsburgh, where samples of some of the principal kinds may be examined and prices obtained. Your orders will be carefully executed at the manufactory, and warranted to give satisfaction or Files returned.

We have permission to refer to the Pittsburgh Novelty Works, who are now using our work to their entire satisfaction. Under date of November 28, 1867, they say:

"The files give general satisfaction in regard to "*temper and cut*. The only objection we find is, "they are cut too fine for our use. A coarser cut "would suit us better. Please remember this when "we send another order."

Also of May 6th, 1867, enclosing draft for $183 73.

"Your Files give satisfaction, and you have per"mission to use our name in regard to their "quality."

Please call and examine samples before placing your orders.

GENERAL INTELLIGENCE.

The latest account from the Jaffa Colony from Maine, says the colonists have not had any trouble with the natives, none with the authorities, no trouble with any sect or denomination of religion, no trouble with anybody but the consuls, and an inglorious few seceding traitors from the colony that have turned against their best friends, but the colony is now in the best standing it has ever been in.

The New Haven railroad appears to have nearly shaken off the burden of deadheads. The Superintendent reports the total number of free passages over the road during the past year to be only four hundred and nineteen, of which three hundred and five were of officers of connecting roads. The deadhead system is one of the little thought-of abuses of railroads, and its abolition is a necessary preliminary to the attainment of cheap fares.

Three Hebrew Rabbis of Baltimore, it is announced, have started in that city a novel movement. They have adopted the Christian plan of Sunday-school instruction in schools meetng on the first day of the week. The enterrise is under the auspices of the Hebrew Eduational Society of Baltimore.

The various city railroads of New York, durng 1866, carried 93,907,682 passengers, as comared with 82,272,023 during 1865. In 1857—he first year of passenger railways in that city—but 22,190,431 passengers were carried.

The Delaware fishermen came to grief last veek, through the agency of the petroleum oil, vhich had been washed from the Philadelphia locks and carried by the freshet up the Delavare. The fish were found to be so impregnated with the oil as to be utterly worthless for ood; and the poor fishermen lost the entire atch of one day.

The Chicago *Journal* charges that the *Independent* newspaper purposely misquotes the alue of certain stocks, and invents false reports concerning the affairs of a certain comany, and all while professing friendship.

A convention of baggage-masters, representng over thirty railroads, met in Chicago on Vednesday. The object of the convention was o perfect regulations for transfering baggage *transitu*. Thomas P. Way, of the New York entral Railroad, was chosen President, and V. Vanolinda, of the American Express, Secetary.

The latest advices from various parts of Illiois and adjoining States, in reference to the uit and wheat crops, are extremely flattering—he damage done by frost has been light.

Last Wednesday afternoon, Wm. Plumner, a arpenter in Hillsborough, Ohio, attempted uicide by cutting his throat with a razor. At ast accounts he was still alive, and it was hought possible he might recover. Despondency produced by protracted sickness, led to he attempt.

Mr. Beverly Smith, Cashier of the National ank at Parkersburg, West Virginia, was found ead in his bed on Monday morning. A short me since, Mr. Beal Blackford, of the same ank, was also found dead in his bed.

PERSONAL.

—The Fenian General Massey, who turned ueen's evidence at the late Dublin trials, seems o have combined more of cowardice, meanness nd treachery, than any man since Judas Iscaot. Having deserted from the British army, e entered the confederate service as a private, nd finally became colonel of a Texas regiment. fter the war he failed in business as a comercial "drummer," and having engaged in e Fenian enterprise, raised a large amount of oney for the cause and went with it to Ireland. e was there apprehended as a Fenian and a ebel, and when arrested swooned away from eer terror, but recovered in time to sell his oul and the lives of his comrades for British old.

—M. Schneider, president of the French legislative body, and proprietor of Creuzot, has xpended not less than 800,000 francs to mainain the honor of the French machinery at the xhibition. He employs more than 20,000 orkmen, 10,000 at the mines, and as many at his orkshops, and with his son directs the little ingdom itself.

—The Boston *Medical and Surgical Journal* ecently asserted that "women were not adapted the study of medicine," notwithstanding the act that Miss Sewell (daughter of Samuel ewell, the friend of Whittier,) is at the head of e Female Hospital in that city, and is held in e highest esteem as an able physician.

—A correspondent writing on board of the oat that conveyed Jefferson and his party om Fortress Monroe to Richmand, describes Irs. Davis as follows: Mrs. Jefferson Davis valked down the plank—a lady a trifle younger an the widow of Abraham Lincoln, but buxm like her, and of the same housewife cast of eatures—a lady probably never called a beauty, o swarthy that she might almost pass for a uadroon, with large, full lips, dark impasioned eyes, black hair, and too much flesh for racefulness. She wore a gray poplin dress, and o ornaments save a couple of rings. Altoether she was hardly a poet, or a poet's diviny, but the second wife of an elderly man, who dded her wealth to his talents, and in her priate devotion was as intense as he in his public efection.

—No official notification has been received of he death of Minister Wright. Already several ames have been suggested as his successor, mong them Judge Evans, of Texas, who is rged by Southern Unionists.

—The Chicago *Tribune's* special correspondnt at Paris writes under date of May 1 that Hon. E. B. Washburne, after spending six weeks in Berlin under medical treatment, left hat city on the 20th ult. for Homburg, the celbrated watering place near Frankfort-on-the-Main, where he is to try a regular mineral water ure. He was first advised to go to Karlsbad, Bohemia, but finally sent to Homburg by the ighest medical authority in Berlin. His condition is considerably improved.

—The ex-rebel General N. B. Forrest, has settled down as a quiet citizen, and is one of he most inoffensive and unassuming men in Memphis. He has become a contractor to build a railroad in Arkansas, and is actively engaged in prosecuting that work,

—The young Earl Brownlow, considered by young ladies as one of the greatest prizes in the London matrimonial market, is engaged to marry Lady Adelaide Talbot. The Earl's income is half a million of dollars. A brother considerately died a short time since and left him sole heir to estates unsurpassed for beauty and splendor.

—By the latest foreign mails we learn that the progress of the Princess of Wales towards convalescence continued in the same kind and degree since last report. The condition of the knee-joint was that of a part in which inflammation and irritation had wholly subsided. The surgeons of the Princess were anticipating that they would shortly be able to apply a supporting apparatus, which will allow her royal highness to move about with safety.

—Mr. Botts has written a letter from Richmond in reply to a note from a friend in Washington censuring him for becoming a bondsman for Jeff. Davis. Mr. Botts says, in answer, that he will not allow himself to be dictated to in these matters. He did everything in the best interests of the country, and before venturing to become bailsman for Jefferson Davis, he asked Mr. Charles O'Connor to inquire of his client if he had any objections that his most determined opponent, his life-long political foe, should, in a spirit of harmony and conciliation, attach his name to the bail bond. Mr. Davis expressed no reluctance, but, on the contrary, was rather well pleased with the magnanimity of the offer. A short interview followed, described by Mr. Botts as being in nowise compromising to the dignity of either party.

—Mr. Robert Bonner, of the *Ledger*, in a note to the editor of the Springfield *Republican* settles a question thus: "You are right; 'Norwood' is Northampton. R. B." The first edition of the *Ledger* containing the opening chapters of Mr. Beecher's story, says the *Republican*, consisted of 352,000 copies, and another edition of 20,000 was immediately demanded. Indeed the *Ledger* was never more successful and profitable than now. Mr. Bonner's income was over $290,000 last year, and the new *Ledger* office that is now being erected, will cost $216,000, including the ground. No limit can be placed to Mr. Bonner's success in the future, unless, like Barnum, he grows ambitious and tries to go to Congress.

—Captain Duncan, with his little $1,500 excursion to the Holy Land, has found a rival. William Bradford, the artist, has organized an excursion to Russian America, that *was*, our new possessions, that *is*. The vessel is expected to leave about the first of June. The fare is very small, but innumerable extras are to be charged. Ice is provided free.

—During a recent convivial meeting of railroad men, at a hotel in Omaha city, a storm came up and broke a pane of glass in one of the dining room windows. The weather was cold, and the company were suffering from the draft. George Francis Train, who was one of the company, hired a negro waiter at ten cents a minute to stand against the broken window and stop the unpleasant current of air. The company were satisfied with the arrangement, and so was the negro, till the proprietor ordered him off to other duty, and would not allow that ebony piece of clay,

"To stop a crack and keep the wind away."

The next day Train broke ground for the foundation of a new hotel at Omaha city, as the want of one had been clearly demonstrated.

—One of the wealthiest and ablest lawyers in New York has instituted suit for divorce from his wife, who is one of the most noted women, for beauty and accomplishments, in the city. The suit is based upon "inhuman conduct" to the gentleman's mother. It seems that the husband left his residence on discovering guilt on the part of his wife; during his absence, his mother, who is very old and feeble, remonstrated with the wife on her conduct, whereupon the "beautiful and accomplished" flew at her with the fury of a tigress, and beat her nearly to death. Only the interference of the neighbors saved her from being murdered. The assailant was arrested and confined in the Toombs to await the result of the old lady's injuries.

SPECIAL NOTICE.

☞ HOLLOWAY'S OINTMENT.—Boils, Pimples, Tumors, &c. The pernicious nostrums advertised as *Cosmetics* are corrosive, mineral and vegetable extracts which not only destroy the skin but lay the basis of innumerable facial disorders and even partial paralysis of the nerves. Without the baneful consequences, Holloway's Ointment will perform all the cures which the others boast but fail to effect. Sold by all Druggists.

☞ A SOLDIER WHO HAD LOST THE use of his limbs from Rheumatism, has been completely cured and enabled to abandon his crutches by one bottle of METCALFE'S GREAT RHEUMATIC REMEDY. It is truly the Wonder of the Age. JOS. FLEMING, Agent, 84 Market street.

Further Home Testimony.

MISHLER'S HERB BITTERS,

Read the following indubitable proof of the great virtue of MISHLER'S HERB BITTERS. Captain James Gallegher is personally known to hundreds of Pittsburgh citizens:

PITTSBURGH, PA., May 7, 1867.

MESSRS. FAHNESTOCK & HOLTON:

Gentlemen—I regard Dr. Mishler as a benefactor of his race. Great men have been raised up from time to time in different ages to bless the world with their skilled genius. How incalculable is the good which many men have almost unconsciously wrought in the world. Dr. Mishler is a hero of this class. His Herb Bitters were accidentally brought to my notice and by their use I have been restored to perfect health. For years I was a victim to the Dyspepsia in its worst form, and was compelled to retire from my business. My health failed so rapidly that I was given over by my physicians. One recommended me to take a tour to California. I did so, but derived no benefit. I had tried, as I thought, every dyspepsia medicine of reputation, and without success. My health still failed, and I became convinced that my days on earth would soon terminate. But Dr. Mishler's Herb Bitters were brought to my notice. I had no faith in them nor anything else. Still, to satisfy friends, I consented to try them. I very shortly began to feel far more improved in health and spirits than I had in years before. I continued to use them regularly, my hope revived, and I gradually recovered. I am to-day as well, strong and hale as I was fifteen years ago, and as I have used no other medicine, I attribute my restoration to Mishler's Herb Bitters. I furnish you with this testimony voluntarily, for I deem it due to you that my fellow citizens should know the great virtue of Mishler's Herb Bitters. I am, gentlemen, your obedient servant,

DR. T. F. CHAMBERS.........General Director.
ANDREW HAIGHT.........Master of Finances.
JACOB HAIGHT.........Treasurer.

Doors open at 1 and 7; Performance commence at 2 and 8 P. M.

Admission 50 cents; Children 25 cents.

In the entertainments of the equestrian department of this vast combination, an unusually large school of artists, male and female, of acknowledged merit, will participate, presenting a series of all that is daring and elegant in horsemanship, graceful and intrepid in acrobatics, skillful, difficult and pleasing in gymnastics, and sumpremely droll in comicalities.

The Animal Department,

Presided over by the distinguished naturalist HERR LINGAL, is rendered thrillingly attractive by the performances of the beautiful Lion Queen, SIGNORITA ELLA EUGENE, in the dens of the savage monsters; which she enters at each exhibition, displaying female courage and daring unparalleled in history.

☞ Splendid music by Story's Champion Band. Performing Horses and Ponies, brilliantly lighted amphitheatre, Brussels carpeted arena, comfortable covered seats, and polite ushers are among the many adjuncts of this perfect model establishment.

For list of performing members, acts presented, animals on exhibition, &c., &c., see pictorial posters, pamphlets and programmes.

RING'S VEGETABLE AMBROSIA

IS THE MIRACLE OF THE AGE.

Gray headed people have their locks restored by it to the dark, lustrous, silken tresses of youth, and are happy!

Young people with light, faded or red hair, have these unfashionable colors changed to a beautiful auburn, and rejoice!

People whose heads are covered with dandruff and humors, use it, and have clean coats and clear and healthy scalps! Bald headed veterans have their remaining locks tightened, and the bare spots covered with a luxuriant growth of hair, and dance for joy! Young gentlemen use it because it is richly perfumed! Young ladies use it because it keeps their hair in place! Everybody must and will use it, because it is the cleanest and best article in the market!

For sale by Druggists generally. Price $1 00 per bottle.

REDDING'S RUSSIA SALVE,
[ESTABLISHED 1806.]
PRICE 25 CENTS PER BOX,
Is the Universal Remedy for

Burns, Scalds, Cuts, Bruises, and all Flesh Wounds; for Chilblains, Chapped Hands, Piles, and Old Scrofulous Sores! Eruptions, Blotches, Salt Rheum, and all Cutaneous Diseases.

REDDING'S RUSSIA SALVE is a *purely Vegetable Ointment*, made from the very best materials, and combines in itself greater HEALING powers than any other preparation before the public. Its timely application has been the means of saving thousands of valuable lives, of relieving a vast amount of suffering, and wherever used, has proved itself in reality A BOON TO SUFFERING HUMANITY.

Sixty Years' General Use of the Russia Salve is a Noble Guarantee of its Incomparable Virtues as a Healing Ointment.

The very large sale of REDDING'S RUSSIA SALVE, during the past *sixty years*, has given rise to hundreds of unworthy imitations, but throughout all opposition, the RUSSIA SALVE maintains its supremacy as a reliable preparation, having a steady and permanent sale, and never deteriorating in quality, by age or climate, and is sold to dealers at a price enabling them to realize a generous profit by its sale. For sale by all Druggists and Apothecuries.

CITY MATTERS.

Sad Accident--Child Scalded to Death.

A little boy, aged three years, named Francis V. Fisher, son of Mr. Fisher, residing on the corner of Bedford and Grosvenor streets, Birmingham, accidentally fell into a kettle of boiling water on Thursday afternoon, and was scalded so badly that he died about six o'clock the same evening. It appears that the little boy was playing out on the porch, and his mother brought out a kettle of boiling water and set it down there. The little boy went up to the kettle and commenced playing around it. By some accident or other the child fell backwards into the kettle, and before any person could take him out, was scalded so severely that death ensued about six o'clock in the evening. Coroner Clawson held an inquest on the body yesterday afternoon. The jury returned a verdict that the child came to his death by accidentally falling into a kettle of boiling water.

Suicide in Liberty Township---Coroner's Inquest.

Mrs. Jane McChesney, wife of James McChesney, committed suicide on Thursday by shooting herself with a pistol, at the residence of her husband in Liberty township, about four miles and a half from the city. Mr. McChesney is employed at the nursery of J. Murdock & Co., and states that he left home about seven o'clock on Thursday morning, without speaking to her as usual, being in a hurry. Their daughter, aged about fourteen years, started for school about eight o'clock in the morning, and returning about two o'clock found the door of the house locked, and went in search of her father. She found him and came home with him about dark. Thinking Mrs. McChesney had gone out and would be back soon, they sat down on the door step a short time to await her return. Becoming impatient, the little girl entered the house through the window, and found the key of the door on the inside. They found Mrs. McChesney leaning by the side of her bed, and apparently dead. They at first supposed that she had ruptured a blood vessel, and summoned some of the neighbors, when it was found that she was dead, having shot herself with a pistol, the ball entering her right breast a little to the right of centre, and lodging in the spine. Coroner Clawson was summoned and held an inquest on the body yesterday morning. The jury rendered a verdict that the deceased came to her death from a pistol wound, inflicted by her own hands. Mrs. McChesney was about forty years of age, and a native of County Down, Ireland. She had been very unwell for the last month or two, and is said to have been much troubled in her mind upon religious subjects.

Messrs. Hogle & Chambers Iron City Emporium.

There is at least one establishment in Pittsburgh that may be safely designated to our readers as complete in every detail, and which furnishes the reading and thinking classes with the earliest and choicest literature of the day, including all the newspapers, popular periodicals, Magazines, Reviews, Books, &c. We allude to the Iron City Emporium of Messrs. Hogle & Chambers, No. 74 Fifth street, next door to the COMMERCIAL Building. At this place there will always be found an exceedingly valuable as well as an extensive stock of stationary goods of every desirable kind, to supply the demands of all classes of people from the richest to the poorest in our community. Added to this is a very large collection of sterescopic views, which embrace all the principal objects of interest in foreign countries and capitals, as well as in our own land, and the new lines of the American and European Stereoscopic Artists are received here just as fast as they are produced. There is a fine stock of stereoscopic instruments, plain and ornamented. Messrs. Hogle & Chambers have just received a heavy invoice of Photographic Albums of all sizes and patterns. They furnish, also, *cartes* for these Albums, to the number of several hundred different kinds, including a large assortment of ideal pictures of the most beautiful description and which cannot be found anywhere else in this city. Another important feature about the Emporium is the Base Ball Department, to which we direct the especial attention of the gentlemen. Messrs. Hogle & Chambers have not only the largest, but also, the best stock of Base Ball goods and bats in the city, and *they are furnishing everything in this line at the lowest prices.* Base Ball literature will be found *in extenso* at this place. Their counters are always filled with the public journals of the day from the leading eastern and western cities, and all the American and foreign periodicals, publications, &c. Messrs. Hogle & Chambers are deserving, enterprising and industrious young men, and are eminently worthy of the most liberal recognition and support that can be given them. We hope our readers will not fail to give them an early call and examine their stock, which will be found to be all that we have represented it. We wish we had space to give more details in regard to it, but for this once we must say to our friends go and see for yourself.

We have a word to add in regard to the wholesale trade of Messrs. Hogle & Chambers. This department of the business is personally conducted by Mr. Thomas C. Hogle, the senior member of the firm, who, although still a young man, is widely and favorably known as one of the most prompt and energetic news agents in the West. His experience is ripe in regard to this important branch of trade, and dealers everywhere may rely upon procuring through the Iron City Emporium, at the very earliest possible moment, both Foreign and domestic publications of all kinds *at the lowest rates.* This is a facility long needed and at last supplied in this section. We commend the attention of dealers generally, to the fact, and we trust that the enterprise, business energy and tact of Messrs. Hogle & Chambers will meet with a generous and liberal support from all sections of our surrounding county. Mr. Matthew Chambers, Jr., the junior member of the firm, like his partner, possesses those business qualifications which eminently fit him for the responsibility and care of the retail department of the Emporium. This department is one which requires in its superintendent cosmopolitan manners, a willingness to satisfy and suit all tastes, and a spirit of entire liberality in the transactions therein carried on. These valuable points our friend Chambers combines with many most agreeable traits of character, which render him exceedingly popular with the already large and rapidly increasing custom of this establishment.

RESIDENCE IN SEWICKLEY AT AUCTION.—This day, at two o'clock P. M., on the premises, will be sold a very desirable house, entirely new, of nine rooms, with lot of ground 108x140 feet (corner lot,) with fruit trees in full bearing. Parties desiring to purchase a house on very reasonable terms can take the 12 M. train to attend this sale. See advertisement of Smithson, Palmer & Co., auctioneers, for particulars.

THE ECONOMY OF HEALTH—HOLMES'S SANITARY TONIC—READ THE PROOF!—It is a great truth that the human body, with all its delicate organism, is adapted for repairs and improvement when damaged by disease, but it is a serious thing to trifle with it in trying to build up the system and reingvigorate it. Dr. Holme's Sanitary Tonic, endorsed by the highest medical authority in the land, may be depended upon as an absolute specific for Liver Complaint, Scrofula, Stomachic Diseases, etc. Read the following: Mr. A. Hartung, residing at No. 10 Diamond, Allegheny City, writes: "All the medicines that I used for curing my disease (Liver Complaint) were good for nothing, at least, they did not benefit me. I read in the COMMERCIAL of the cures effected by Holmes's Sanitary Tonic, and resolved to give this medicine a fair trial. Now for the result: I have used just four and a half bottles, and I am now even in better health than I have enjoyed in ten years. I have followed the directions in regard to taking the Tonic, and all the symptoms of my disease are gone. Hundreds know me personally, and will attest the great change that has taken place in me during the past six weeks. The Tonic has cured me." Sold by all druggists. McClarran & McKennan, Agents, corner Market street and Diamond, Pittsburgh, Pa.

A Remarkable Case of Physical and Nervous Prostration.

INDIAN HERB DOCTOR—*Dear Sir:*—I cannot refrain from making a voluntary offering of my gratitude to you for your scientific instrumentality in restoring my wife to health and spirits, after the medical faculty of Pittsburgh gave her up to die. My wife was a mere skeleton, at best like to an effigy of bones strung on wires, as found in the museums and anatomical theaters of the medical schools. Your treatment brought her clean out of the grave. She is now perfectly well. Every time I called at your office it was thronged with patients; not from the lowly and ignorant, but from the most wealthy, influential and respectable classes, all of whom you received with dignity and courtesy, and *diagnosed* their disorders without asking them the slightest question, with such wonderful accuracy that many of your patients were constrained to exclaim that you had read their characters and complaints most thoroughly and satisfactorily, not only to themselves, but accompanying friends. Doubtless the day is at hand when the whole science of medicine will be written on a single page, when mankind will understand that the great secret of life consists in maintaining the aequillibrium of the nervous or electrical forces of the organism.

Yours, truly, JAMES BOYCE,
75 Penn street.

THE BEST TONIC.—Caswell, Mack & Co.'s Combination of Iron, Phosphorated and Calisaya, known as Ferro—Phosphorated Elixer of Calisaya. The Iron restores color to the blood; the Phosphorus renews waste of the nerve tissue, and the Calisaya gives a natural, healthful tone to the digestive organs.

One pint contains the virtue of one ounce of Calisaya, and one teaspoonful a grain of Iron and Phosphorus.

Manufactured by Caswell, Mack & Co., New York. For sale by all druggists. s*

FIRST IRON ROLLED IN TRUMBULL COUNTY, OHIO.—The Packard & Barnum Iron Company tested their machinery on Wednesday last, and rolled an experimental bar. Ground was broken for this mill last October, and the work was pushed forward throughout the cold days of last winter with commendable energy by the efficient superintendent, C. B. Darling, Esq. The mill has all the latest improved machinery for manufacturing merchant bar, and in addition a first class forge. The engine, which is a very superior one, was built by Messrs. Foster & Company, of the "Heron Works," this city, and we need say nothing further in its favor than to state the fact that in ten minutes after the throttle was first opened the first bar of iron was successfully rolled.

A NEW YORK correspondent of the Cincinnati *Times* says: "I think I have discovered the secret of the peculiar beauty of the New York ladies. I mean the smoothness of their skin and its delicate coloring. It is owing to the constant use of Jared's 'Email de Paris.' Perhaps you do not know what the 'Email de Paris' is. Who does? Its application cannot be known, for it cannot be seen. It is set forth as neither a paint, powder, paste nor ointment, but a delicious preparation that gives both the color and texture of polished ivory to the skin. It is used here by every lady that can afford it, from the Fifth avenue belle, down to the piquant and flashy avenue store girls, who, I imagine, influence much of the trade in our retail stores. Jules Jared himself, is a sort of magnanimous *Quasimodo*, ugly and deformed, but with a rare love of the beautiful, since he has married a beautiful wife, and given to feminity the 'Email de Paris.'"

All the World Over!

There are but few spots on our globe where HOSTETTER'S STOMACH BITTERS are not known; and, when known, appreciated.

In the UNITED STATES and BRITISH AMERICA it has become a household word. As a protective against malaria, epidemic fevers, Fever and Ague, and other diseases, produced by miasmatic influences, it stands far ahead of all other preparations, and is so considered by the most eminent physicians of the day.

In SOUTH and CENTRAL AMERICA, MEXICO and WEST INDIES it has obtained a firm hold on the minds of the people, and is implicitly relied upon as a certain preventive and cure for the many malarious diseases incident to those tropical regions.

In AUSTRALIA, TASMANIA, NEW ZEALAND, and adjacent Islands, its progress has been marvelous. Merchants, Miners, Farmers, Manufacturers and Squatters, all endorse it. Thousands already has it saved from the pernicious effects of miasma arising from the low swampy grounds so prevalent in those countries.

In CHINA and the EAST INDIES it is working its way with rapid strides, and is extensively used in the hospitals.

In Conservative EUROPE, even, its influence is being felt; and the day is not far distant when HOSTETTER'S STOMACH BITTERS will become in the old world what it now is in the new—a never-failing joy to the afflicted.

FINANCE AND TRADE.

FRIDAY EVENING, May 17, 1867.

Our local stock market is calm and unruffled. Its stillness is scarcely disturbed now-a-days by a transaction. We are glad, therefore, to be able to record sales of two lots of Columbia Oil Stock, if but to break the dull monotony that prevails, of 100 share each at $6 30 a share.

In other stocks holders seem content to hold, whilst buyers are quiet, and show little or no disposition to invest.

—There was a heavy discount demand to-day on the banks, from their customers, which was pretty liberally met. The market is not regarded, however, as very "flush" of means, and outside operations are slow and hesitating.

—Nearly all classes of the Public Fund are in quick demand in this market, and are the most popular investments in the market. The quotations to-day in New York for these securities, as received by Messrs. McVay & Co., show a slight advance above yesterday's:

—The *Tribune* says that under extreme ease in money, several shares have been made to look active and strong; but no market has been made upon which much stock can be sold. The bulls just now are "strong in great expectations," but weak in capital, and operate for small profits. The street is full of blocks of stocks, being carried upon the hope of a better market; but they, in all probability, will go to sale at brief notice, and at lower prices.

Friday's quotations as received by Mr. Bryan show a lower grade in prices:

Michigan Southern	67⅞
Cleveland & Pittsburgh	72⅝

Erie	62¾
Chicago & Rock Island	88⅝
Chicago & Northwestern	34⅞

—The *Times* says: The New Orleans Bank difficulties continued to affect the exchange and gold markets. The additional particulars since yesterday confirm the rumor of very bad work in the First National of New Orleans, amounting to utter bankruptcy, and the implication of the funds of New Orleans Sub-Treasury. The loss to the latter is not yet known, but the circumstances of the use and abuse of the official relations, past and present, of the managers of the bank with the Sub-Treasury, are understood to be gross and unpardonable. The losses that fall upon New York through the protested domestic and foreign bills of the bank will not, we imagine, prove very serious; not so much, at all events, as they would have done had the explosion occurred a month or two ago, when the concern enjoyed a fair credit in the foreign exchange market.

—A telegram from Baltimore to-day reports business as very dull, and the money market is getting tight. A financial crisis is talked of and feared. The failure yesterday of Crichton & Co., large commission merchants, adds to the uneasiness in commercial circles. Other failures are rumored and expected, especially among the merchants engaged in the Southern trade.

—S. S. Bryan, Broker in Government, Railway and other Bonds, and Bank and Railway Stocks, &c., Apollo Building, Fourth street. Orders for the purchase and sale of stocks executed at the New York, Philadelphia and Boston Stock Boards at the regular rates of commission current in those cities.

Weekly Review of the Pittsburgh Pig Iron, Bloom, Bar Iron, Nail, Steel, Copper, Hardware, Lumber, Ale and other Markets.

OFFICE OF THE PITTSBURGH COMMERCIAL, FRIDAY EVENING, May 17, 1867.

PIG IRON AND BLOOMS.

There is a better feeling in Crude Irons, although the sales of the week have not been large, the tone of the market has been firmer, and the inquiries are such as to induce the belief that an increased volume of trade will be realized the coming week.

Stocks of crude Iron are found to be lighter than has generally been supposed, and, although ample for present demand, the better grades or favorite brands of standard forge are relatively scarce, and are firmly held.

We are reported the following sales, to wit:

CHARCOAL SMELTED.

50 tons H. R. No. 1 Foundry, block ore	$51 00,	4 mos
50 " No. 2 " "	48 00,	"

50 tons Diamond, " " "	46 00, 4 months

IRON BARS AND NAILS—No change has taken place in prices for some time past. There is a moderate demand for nails, but bars are generally dull. Orders are not coming in of any size or of any amount. Nearly all the bar mills are running with a limited number of workmen, but none of them approach anything near their full working capacity. It is probable, that unless something turns up different from present appearances and the expectations of manufacturers, there will be another suspension of work in many, if not all of those now running. The nail mills are running pretty full.

LIVERPOOL PRICES.—British Staple Articles.—The *Iron Trade Circular*, (Ryland's), of April 27th, quotes as follows: Copper, 8l ⅌ cwt., S. Bolts, &c., 4l 6s; Tile, 8l ⅌ cwt., 4l 2s; Iron, bar, 8l ⅌ ton, 6l 7s 6d, to 6l 15s; Hoop, inch, 8l 8s to 9l; Nail Rods, 7l 5s to 7l 15s; Sheet, single to No. 20, 9l to 9l 5s; Pig, Scotch (in Glas.) 2l 14s 6d to 3l 6s; N. Wales, 4l; S. Wales (in Wales) 4l to 4l 10s; Lead, Pig 20l; Sheet, 21l on, 21l 10s; Shot, patent, 23l 10s; White, dry, 28l; Red, 21l 10s; Tin, Block, ⅌ cwt, common, 4l 9s; Tin Plates, Coke, I C, 23s 6d to 26s; Coke, I G, 29s 6d to 27s; Charcoal, I C, 28s to 31s; Charcoal, I G, 34s to 37s.

STEEL—There is only a moderate business doing in steel, and the market rules dull at the same quotations current for some time past. The market has a very good stock on it. Best quality refined tool steel quoted at 19c; machinery steel and cast spring steel 15c; German spring and plow steel 13c, and blister steel 13c.

COPPER—There is very little doing in this metal, there has been no change in prices for some time past, and we continue to quote Brazier's coppers, 14x60 inches, bolt coppers and sheathing, 14x18 inches, at 36c, and copper bottoms at 44@46c. In New York new sheathing is quoted at 36c, and yellow metal 23c net cash. The ingot market (in New York) is reported dull for lots on the spot; but, says the *Commercial List*, there continues some speculative inquiry for future delivery: the sales embrace about 100,000 lbs of all kinds at 23½@24c, including 50,000 lbs Baltimore at the former price; 50,000 lbs Detroit, June delivery, 24½c; and 100,000 lbs Portage Lake and Tennessee, to arrive, 23½@24½c.

TIN, ROOFING, &C—Prices unchanged and but a moderate trade doing. Bar tin is quoted at 37c; pig tin at 35c; sheet zinc at 15c, and slab spelter at 12c. The New York *Commercial List* says favorable accounts, it is said, have been received by telegraph, and the market for strait pig has been active and excited, the business being larger than we have noticed before in some time. The sales embrace 7,500 slabs, mostly to arrive, including all known to be on the way from the Straits, on private terms. Prices are now higher, and we quote lots from store at 22½@22¾c gold. 4,000 pigs Malacca are now being shipped to England, which reduces the stock here and in Boston, in importers' and speculators' hands, to 14,713 slabs. There are to arrive 7,747 slabs, of which 4,433 slabs have been sold for consumption, leaving 3,314 to arrive to importers and speculators, which added to the stock on hand, makes a total of 18,027 slabs here and to arrive. The reduced supply imparts confidence to holders. Other descriptions have not moved, and prices are unchanged, though, in sympathy with the rising tendency of Straits, they are held perhaps a little firmer. Banca 25c, English 22c gold. Plates are steady, and some kinds are a little firmer; 500 boxes ½ X sold at $9 for I. C. now generally held higher, and 500 do I. C. Coke, $7 87½ gold. In zinc there were small sales of Mosselmann from store, at 8 cents for 3@3⅝ inch, and 8¼ cents for 36 inch net gold. Lehigh is steady at 11 @11½c currency.

GLASS—There has been no change in prices since our last, although the market has a downward tendency. Window glass is moderately active.

HARDWARE—There is nothing of importance to notice in any branch of the trade. Business has fallen off considerably, and we now note a dull market. During the month of April there was quite an active trade done, but for the present month the aggregate business will be very small. The market is well stocked with choice selections of both American and foreign articles. Prices are generally low compared with many other articles in other branches of trade. The New York *Commercial List* says there has been rather less demand for goods generally, and great dullness prevails in some departments. American and Foreign maintaining about the same relative positions before noticed. In prices, there have been no further changes, but some goods which have been dull all the season, could be bought at rather easier rates. Carpenters' tools are not quoted lower, but buyers have the advantage. Carriage and tire bolts continue irregular, quotations varying from 40 to 60 per cent. discount from list. Agricultural implements are only in moderate request. Door locks are in fair demand, but pad are dull. Brass goods are very dull, as are also plated ware, tin furnishing goods, files, saddlery goods, &c. Plumbers pipes and hollow ware are steady at previous prices. Stoves are duller than usual at this ordinary dull season of the year. Table cutlery is more quiet, and Manufacturers are gaining on their orders. Manufacturers generally, are very dull. Foreign goods continue exactly as last noticed.

LEATHER AND HIDES—There is no new feature noticeable in the market. Trade is only moderately active at previous quotations, but these prices are firm although the business is small. The Boston market is reported "steady, with a moderate demand for nearly all kinds. The stock of both rough and finished upper has lately been much reduced, and prices are firm. Both consumers and curriers are tolerably well stocked for the present; but some descriptions are wanted, and rough hemlock upper, especially, is taken as fast as received from the tanneries." The *Bulletin* quotes sales of hemlock sole "at 28@32c, the outside rate for middle weights; oak do is selling at a range of 36@55c, including crop. Rough upper is in small stock and very firm, with sales at 37@42c for hemlock and 39@43c for oak. Rough calfskins are firm at the late advance, with further sales at $1 00@1 10, mostly at the inside rate; finished do are selling at $1 20@1 55, as to quality and weight. Finished leather is firm and continues to sustain the advanced rates, with a fair demand. We quote wax at a range of 23@30c, as to grade; grain 23@27c for heavy, and 18@22c for light; pebbled, 17@21c; buff, 23@28c; enameled, 23@26c; patent, 25@30c ⅌ foot; splits, 30@52c ⅌ lb. Harness leather is selling at 40 @45c ⅌ lb for country, and 50@54c for Boston tannages, including both hemlock and oak."

BOOTS AND SHOES.—There is no new feature in the market. It is quiet and dull, as is usual at this season, but the business falls in amount far below the usual trade transacted at this time of the year. There is an excellent stock of all descriptions on the market, and prices are very reasonable.

FRUITS.—The trade in foreign fruits continues moderately active, and some changes will be noticed in our quotations. The New York *Commercial List* says: The demand continues very moderate and the business is light. Raisins, in lots, at $3 70; 100 flat frails Muscat dates, 13c; 25 bags Tarragona almonds, 28c; 500 bags African pea nuts, $3 12½; 200 bushels Wilmington do, $3 75 ⅌ 26 lbs; $1,500 Baracoa cocoa nuts, $87; 1,500 bunches Baracoa bananas, $1 50@2 00; 10,000 Matanzas pine apples, $13; 15,000 Abaco red, $12 (the crop of this fruit in the Bahamas, it is stated, will not be over one-third the usual yield, in consequence of the damage the plants suffered in the severe hurricane last fall); 50 Cuba pumpkins, $1 50@1 87½ ⅌ doz; Messina oranges, $5; Palermo, $4 @4 50; do lemons, $3@3 50; Messina do, $1 25@4 50; 120 bbls currants, in lots, 23 casks Turkish prunes, 31 do to arrive, 200 kegs French plums, 50 bags French walnuts, 100 do filberts, 100 bags Tarragona almonds, 343 kegs tamarinds (with resales at $4@4 50) 50 cases, 50 and 50 boxes sardines, 3,000 San Blascocoa nuts, and 50 bags Curaceo pea nuts, on terms not made public.

CRACKER MARKET—There is a moderate trade doing. A few changes have taken place since our last in a few articles among the many manufactured and quoted by Marvin.

ALES—There is a good stock on the market, and from the card prices of Carson, Darlington & Co., we see no change in quotations from those given for a long time back.

LUMBER.—There is a fair trade doing from the Yards at previous quotations. The good grades of Sawed Lumber afloat have principally been disposed of at from $24@26 per M. There is a large amount of Common for sale, and selling at $18@20 per M. A very large quantity has been floated to the lower river trade.

The Broom market is only moderately active at former quotations. Wrapping Paper and Rags are active. Soap and Candles remain as last noticed. There is a moderate business doing in Tobacco, but quotations remain unchanged. The Manilla, Hemp and Tarred Cordage, Oakum, &c., market continues fairly active, but we have no changes to note in prices. The Dry Goods Trade, for the season, is about closed.

PRODUCE AND GENERAL MARKETS.

OFFICE OF THE PITTSBURGH COMMERCIAL, FRIDAY EVENING, May 17, 1867.

In the market for general merchandise there is but little activity exhibited, except in breadstuffs—and in such other articles of produce as are required to supply actual wants.

For the present no improvement is anticipated.

The receipts of leading articles of produce, per river and railroad, since our last, were as follows: Flour, 1,188 bbls; apples, 22 bbls; cheese, 150 boxes; corn, 3,618 sacks; barley, 233 sacks; wheat, 602 sacks; rye, 177 sacks; oats, 501 sacks, and butter, 66 pkgs.

We quote as follows, which are the wholesale prices, unless otherwise stated:

ASHES—Sales reported of 10 tons pearls at 11@11½c; common soda ash 5½c, and refined 5¾c ⅌ lb.

APPLE BUTTER—Several packages sold, from store, at 75c ⅌ gallon.

BRICK—The quotations for city hand made brick are $11 ⅌ M., the run of the kiln, and for machine made brick $10 ⅌ M., delivered. This is a decline in prices.

BUTTER—The market is still weak and prices tending downward. Receipt of new have been quite liberal. We quote choice roll dull, from store, at 20@22c ⅌ lb, and in order to effect sales, lower prices were taken. The only demand is for choice new articles.

BEANS—Prime beans are active and wanted at $2 75 @3 00 ⅌ bush.

CATTLE—We note a sale of 20 head averaging 1,500 lbs, at $9 50 ⅌ 100 gross.

CHEESE—The receipts of new Western Reserve are quite liberal and selling from store at 14@16c ⅌ lb. Goshen is quoted at 21c ⅌ lb.

EGGS—Market continues active. Sales of packages in good order were made from store at 16@17c ⅌ doz.

FRUIT—The market is nearly bare of choice green apples, and from store they may be quoted at from $7 00@8 00 ⅌ bbl. Those not strictly choice command but nominal prices, ranging from $4 00@7 00 ⅌ bbl., as to quality, etc. Domestic dried fruits continue dull, and sell at nominal prices, ranging, from store, for apples 8@10c, and for peaches from 12c to 20c ⅌ lb.

FLOUR—There is still a good demand. Medium grades are 25c lower. Standard brands of spring are selling readily at $14 75@15 00 ⅌ bbl. We note sales of the following brands: 100 bbls Phoenix at $14 00; 50 do Grant mills at $13 75; 100 do Emerald at $14 60; 200 do Sears' Best at $15 00; and 100 do Jenkins's Lilly at $15 25 ⅌ bbl.

GRAIN—No wheat coming to market except on account of millers. No reported sales. Prices are entirely nominal.

CORN—There is a little more doing, but still the market is dull. We note sales of 246 bushels shelled (mixed) at $1 02; 1 car in elevator at 98c ⅌ bush for No. 2. Several are holding at $1 00@1 05 ⅌ bush.

OATS—We note sales of 1 car, delivered, at 65c, and 445 bush on the wharf at 61c ⅌ bush.

RYE—We note sales from store of 150 bush Rye at $1 67@1 70, and a sale on the wharf at $1 60 ⅌ bush.

LIME—Sales reported of 200 bbls at $2 00 ⅌ bbl.

LEAD—We note sales of 500 pigs 10¼c ⅌ lb.

FLAX SEED—Sales reported of 11 bbls at $3 00 ⅌ bush.

POTATOES—There is a demand for P. B. Potatoes, which are scarce. Sales were freely made from store at $1 00@1 05 ⅌ bushel. 325 bbls Neshanocks sold at $2 50 ⅌ bbl.

WHISKY—City rectified is quoted at $2 15 per gallon, and highwines at $2 25 ⅌ gallon. Illicit whisky is quoted at $1 70 ⅌ gallon.

FLOUR AND GRAIN IN STORE AT CHICAGO.—The following table, compiled from the official returns of the warehouse men, exhibits the amount of Flour and Grain in store in Chicago at the close of business, on Saturday last, compared with the amount in store at the corresponding date last year:

	1867.	1866.
Flour, bbls	68,951	37,870
Wheat, bush	176,231	833,434
Corn, bush	1,121,430	1,969,327
Oats, bush	321,137	365,672
Rye, bush	73,859	154,265
Barley, bush	92,653	166,431

PITTSBURGH OIL TRADE.

OFFICE OF THE PITTSBURGH COMMERCIAL, SATURDAY, May 18, 1867.

BUSINESS—The crude market since our last was dull. Buyers held off. The result was we have but a limited amount to report. Prices however, have undergone no change. The market contains a fair supply. The crude receipts were 15,001 barrels. A portion, however, of this goes to meet previous contracts. The only sale reported was 550 barrels bulk, 36 gravity, at 7c, being equal to 12c, barrels returned.

REFINED—Was active. The sales were the largest we have reported for some days, reaching 8,500 bbls, all for future delivery, as follows: 2,000 bbls bonded, standard white, deliverable, Philadelphia, September, 29c; October, 30c; November, 31c; December, 31½c ⅌ per gallon. Sales 3,000 bbls standard white, Philadelphia: 500 bbls September: 500 bbls do, October, 1,000 bbls do, November; 1000 bbls do, December, at 31c, being an advance. Sales 500 bbls, Philadelphia, September, 30c; 500 bbls do, October, 30c. Sales 2,500 bbls Philadelphia delivery, as follows: 500 bbls August, 29c; 500 bbls do, September, 30c; 500 bbls do, October, 30c; 500 bbls do, November, 31c, and 500 do, December, 31c ⅌ gallon.

The following is an extract from a private letter received by the last steamer; our readers can draw their own conclusions:

MARSEILLES, April 29, 1867.

"The position of refined petroleum at this port is very bad just now. Buyers are frightened by the continuation of large arrivals and the diminution of consumption, at this season of the year. No prime buyers in the market. Price for S. W. 40 to 41 francs. Stock to-day 25,372 bbls, against 12,400 same time last year."

LUBRICATING OILS—We note sales as follows: 20 bbls Eureka Sperm at $1 10; 25 bbls Engine at 95c; 15 bbls "B" at 60c; 15 bbls "C," 40 bbls "D" at 35c; 35 bbls Chemical Linseed at 90c ⅌ gal.

New York Finance and Trade

Gold Closed at 136⅞@137.

NEW YORK, May 17—P. M.

THE MONEY MARKET.

Money was firm during the forenoon at 5@6 per cent. for call loans, but the market was easier in the afternoon and the demand freely met at the advanced rate. Discounts 6½@7 per cent. The State of Minnesota is in the market for a loan.

FAILURE.

The failure of Hamlin, Wheeler & Co., in the dry goods trade, is announced.

GOLD

Was not active, but rose during the day to 137⅛, closing quiet at 136⅞ bid, and 137 asked. Loans were made at 3@6 per cent. for carrying.

STERLING

Quiet and steady at 109⅞. Cotton bills are in more favor, from the improved tone of the Liverpool market. The Government is not selling gold at present. The Assistant Treasurer has drawn on the banks for $5,000,000 during the past two days, half of which was paid in Clearing House certificates. This very nearly cancels the recent sales of bonds and gold. The shipment of specie to-morrow will likely border on two and a half millions.

GOVERNMENTS

Opened strong and closed weak, and a fraction lower. Registered '81, 111⅛@111⅜; Coupons '81, 111⅜@111⅝; Registered '62, 106@106⅛; Coupons do. 109⅝@109⅞; Coupons '65, 106⅞@106⅞; do new, 107⅛@108; 10-40s registered, 106⅛@106⅜; June 7-30's, 105⅞@105⅞.

STOCKS.

The market opened tame, and prices generally declined, Erie selling as low as 62. The market was steady at the one o'clock and second board, and subsequently became stronger, and closed firm.

CLOSING PRICES.

5:30 P. M. prices: Gold, 136⅞@137; Ohio Certificates, 24@24½; Canton, 43¼@44; Cumberland Coal, 30@30½; Quicksilver, 26⅞@27; Mariposa, 6½@7½; do preferred, 17½@18; Western Union, 42⅛@42¼; Pacific Mail, 128@128½; Atlantic Mail, 103½@104; New York Central, 97⅝@97⅞; Erie, 62⅞@63; Hudson, 101@101¼; Reading, 103¾; Michigan Central, 109½; Michigan Southern, 67⅝@67⅞; Illinois Central, 114¾@115; Pittsburgh, 72⅝@72¾; Toledo, 113@113½; Rock Island, 88⅝@88⅞; Northwestern, 34⅝@34¾; do preferred, 59⅞@59⅞; Fort Wayne, 95⅞@95⅞.

BORDER STATE BONDS

Firm; new Tennessee, 62⅛@62⅞; old Virginia, 67@67½; new North Carolina, 57; Missouri, 97⅛@97⅞; Hannibal and St. Joe bonds, 81⅛@82; Pacific, 97 @97⅞.

MISCELLANEOUS.

Steamship and coal shares firm; miscellaneous list inactive and generally lower.

MINING MARKET

Quiet without change; Corydon was the most active fluctuating stock. The price opened at $2 25, declined to $2, and rallied to $2 15; Gregory, $8 50@$8 95; Quartz Hill, $1 85@1 90; Sensederfer firm at $9 50.

Receipts at the Sub-Treasury, $2,776,529; payments, $1,654,368; balance, $126,401,266. The receipts include for customs $285,000; and gold notes $222,000.

NEW YORK, May 17.—Money fairly active at 5@6 per cent. for call loans. Sterling quiet and firm at 109⅞. Gold a shade easier, opening at 137¼, declining to 136⅞, advancing to 137¼, and closing at 137⅛. Governments quiet without material change. Freights to Liverpool quiet and steady.

PITTSBURGH DRY GOODS MARKET.

OFFICE OF THE PITTSBURGH COMMERCIAL, FRIDAY, May 17, 1867.

The volume of spring trade is now over, and dealers are expecting dull Mondays and Fridays. Country buyers are only buying their second stock, cautiously. Our jobbers are ready to meet the market at the ruling figure of the day, and offer goods at figures that will compare with anything East or West. Goods are very cheap and our quotations show that prices are such that merchants can buy a good many goods for a reasonable amount of money.

THE RIVER AND MATTERS ALONG THE WHARF.—The weather yesterday was clear, but cool for the season. The Monongahela marks indicated seven feet six inches; the Allegheny marks eight feet six inches and falling. The Belle came in from Cincinnati with a good trip. She returns this afternoon. The Robert Moore left for Portsmouth with a fair trip. The Leni Leoti, for Parkersburg, had a good trip. She will be followed to-day by the side-wheel steamer Grey Eagle. She leaves at noon. The Lorena, Captain Shuman, is the only boat loading for Cairo and St. Louis. The Julia No. 2, a first class boat, is announced for Cincinnati and Nashville this day. The Kenton, a first class boat, is receiving for Memphis and New Orleans. She will go through without reshipping. The People's Line are running daily packets to Geneva. The Elisha Bennett carries a calliope for the benefit of the inhabitants of the Monongahela Valley. Captain Vandergrift has contracted for a side-wheel steamer for the Cincinnati trade. The Parkersburg Packet Line have contracted for a first class side-wheel steamer. She will be completed by fall. The towboat Coal Hill left for Cincinnati with one hundred thousand bushels of coal. The Coal Valley left for Cincinnati with 10 barges containing one hundred thousand bushels, being her ninth trip since the opening of navigation. Pretty hard to beat that. Several other boats were getting ready to leave on this water. The coal men have had a busy time for some time past in getting their tows ready.

THE punctual packet Robert Moore left last evening for Portsmouth with a good trip.

THE steamer Armadillo, Captain Swaney, has laid up at Cincinnati to paint and repair.

WE are indebted to the officers of the steamer Belle for attention to this office.

THE packet Glendale is being fitted up in a handsome manner. She looks well.

THE steamer Leni Leoti, Captain Hamilton, left yesterday for Parkersburg with a good trip.

THE steamer Minnie, Capt. Shaw, left Cincinnati for this port on Wednesday.

THE Ida Rees, Capt. Joseph Browne, was announced to leave on Thursday.

THE steamer Nora, Capt. James Shedden, left St. Louis for the mountains, with 200 tons of freight and fifty passengers, including sixteen ladies.

THE towboat A. J. Baker passed Cairo on Wednesday, on her way to this city, with a tow of empty barges.

THE steamer Elisha Bennett, Captain M. A. Cox, has mounted a calliope. She left last evening for Geneva in company with the Elector.

A ST. LOUIS dispatch says: The loss by the burning of the steamer Denver, at St. Joe, yesterday, was $75,000; $35,000 insurance in Cincinnati offices.

A NEW and splendid side-wheel steamer has been contracted for by the Parkersburg Packet Company. She will be completed by fall, and will be one of the boats you read about.

PASSENGERS by the steamer Belle, which leaves to-day, will arrive in Cincinnati on Monday in time for all western trains and Louisville morning packets.

MORE STEAMBOAT EXPLOSIONS.—Among the disasters we have to record is the explosion of the Tom Morgan, near Leavenworth, Missouri river, causing the loss of two lives.

THE Importer, Capt. Noss, arrived at Cincinnati on Wednesday night, and was announced to leave for Pittsburgh on Thursday afternoon. She had a good trip.

THE Cincinnati *Gazette* has the following: The Tennessee packet has arrived. It is highly probable Captain Golden will seek a harvest in a more golden trade.

THE towboat Sam Roberts arrived at Louisville on Wednesday with a big tow of coal. She returned the same evening for Pittsburgh with a tow of empty barges.

THE first class packet Lorena, Captain Shuman, leaves for Cairo, St. Louis and St. Paul on Saturday. This boat has unsurpassed accommodations, and is in charge of clever and attentive officers.

THE Parkersburg packet for this day is the steamer Grey Eagle, Captain C. L. Brennan. She is well found in every respect, and in charge of careful and attentive officers. She leaves punctually at noon.

HO! FOR THE SUNNY SOUTH.—The fine packet Kenton, Captain Dunlap, is announced for New Orleans direct, being her third trip this Spring. This boat is noted for superior accommodations and attentive officers. Call early and secure a stateroom.

MORE COAL DEPARTURES FOR CINCINNATI.—The Coal Hill left with 10 barges containing 100,000 bushels of coal. The Coal Valley left for the same port on her ninth trip since the opening of navigation containing with 8 barges containing 75,000 bushels of coal. Coal City, 10 barges, 100,000 bushels; Leopard, 7 barges, 70,000 bushels, and Lion with 10 barges and 100,000 bushels. Total 455,000 bushels.

MURDER WILL OUT.—It seems to be fully ascertained that Captain Swift, of the steamer Como, which was destroyed some weeks since by fire, while on trip up Trinity river, Texas, was murdered by one of the crew, and the boat fired as a means to conceal the crime. It is said that the wretch accused of the deed has confessed to a comrade that he was hired to do it for $100.

THE fine passenger steamer Julia No. 2, Captain Wm. Coulson, leaves this day positively for Cincinnati, Louisville and Nashville. This boat has unsurpassed accommodations and has always been noted for experienced officers and attention to passengers. Our old friend Capt. George H. Christ will do the honors in the office.

THE fleet packet Belle, Capt. T. W. Laughrey, leaves this day positively for Cincinnati as the regular Saturday packet on her second trip. She is well found in every respect. Persons who have traveled on her speak in flattering terms of her appointments. Capt. J. W. Chambers, formerly one of Uncle Sam's men in time of need, will be found in the office. John is one of them you read about.

A ST. LOUIS dispatch of Wednesday says the Glasgow left yesterday for Pittsburgh. The Sherman may get off to-day. The Nora left for the mountains with 200 tons, drawing thirty-nine inches, and has fifty passengers, including sixteen ladies. The Leclaire arrived this morning from Sioux City. She brought the engineers and carpenters of the lost Mariner.

LOSS OF LIFE ON THE LANCING.—Six persons were killed and six wounded by the explosion of the steamer Lancing, at Hampton. The names of the killed are George White, pilot; L. E. Claire, of Iowa; William Wassinger, cook, of Fort Madison; James Tracey, fireman, of Rock Island; William H. Beebe, of Colona, Ill., H. Curtis, of Dubuque, and Wm. H. Noble, of Burlington.

BANKERS,
AND DEALERS IN
Government and other Desirable Securities.
No. 5 Nassau St., N. Y.,
Recommend to Investors the
FIRST MORTGAGE BONDS,
OF THE
CENTRAL
PACIFIC R. R. CO.
This Company is constructing under the patronage of the
United States Government.
the Western end of the
Great National Railway Across the Continent.

Their line will extend from Sacramento, California, across the Sierra Nevadas to the California State Line, traversing the *Richest and most Populous Section of California*, and thence through the *Great Mining Regions of the Territories*, to the vicinity of Salt Lake City.

It forms the *sole Western link* of the only route to the Pacific which is adopted by Congress and *aided by the issue of United States Bonds.*

Their road is already completed, equipped and running for 94 miles from Sacramento to within 12 miles of the summit of the Sierras, and a large amount of the work of Grading, Tunnelling, &c., beyond that point has been accomplished.

The First Mortgage Bonds of this Company afford unusual inducements of Safety and Profit to Investors, for the following among other reasons, viz:

First. The rate of interest is *Six per Cent. in Gold*, payable semi-annually in the city of New York.

Second. The *Principal* is payable *in Gold* at maturity.

Third. The cost of the Bonds, *Ninety-five Per Cent.* and accrued interest, is *Ten Per Cent.* less than that of the cheapest Six Per Cent. Gold Bearing Bonds of the Government.

Fourth. The *United States Government provides nearly half the amount necessary to build the entire road, and looks mainly to a small percentage on the future traffic for re-payment.*

Fifth. Owing to this liberal provision, accompanied with *Extensive Grants of Public Lands*, by which the Government fosters this great national enterprise, *its success is rendered certain, and its financial stability is altogether independent of the contingencies which attend ordinary Railroad enterprises.*

Sixth. The Security of its *First Mortgage Bonds* is therefore *ample*, and their character for safety and reliability is equalled only by that of the obligations of the *Government itself.*

Seventh. The net earnings of the completed portion are *already largely in excess of the interest obligations which the Company will incur on twice the distance*, and are steadily increasing, rendering the *uninterrupted payment of the Interest absolutely certain.*

Eigth. At the present rate of Gold they pay nearly 8½ *Per Cent.* per annum, on the amount invested.

The Bonds are issued in denominations of $1,000 with semi annual Gold Coupons attached, payable in New York, and are offered for the present at 95 per cent. and accrued interest (in currency) from January 1st.

Orders may be forwarded to us direct, or through the principal Banks and Bankers in all parts of the country.

Remittances may be made in drafts on New York, or in Legal Tender Notes, National Bank Notes or other funds current in this city, and the Bonds will be forwarded to any address by express, free of charge. Inquiries for further particulars, by mail or otherwise, will receive punctual attention.
